

# U.S. CENSUS 2020

## STAND UP AND BE COUNTED

### WHAT IS THE U.S. CENSUS?

The census is a headcount of all the people living in the United States and occurs every 10 years.

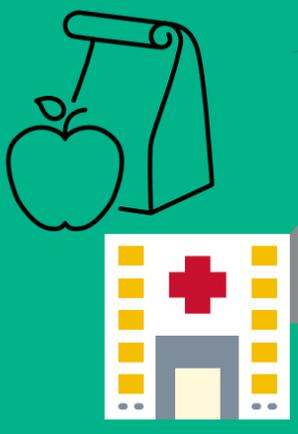

### WHAT KIND OF DATA DOES THE CENSUS COLLECT?

- Population data
- Age
- Sex
- Race
- Types of housing
- Average household size

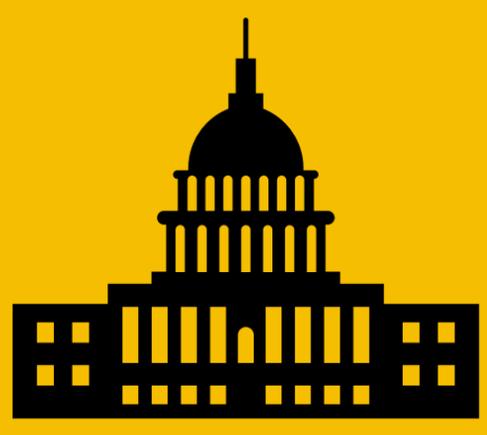

### \$675 BILLION IN FEDERAL PROGRAMS

The 2020 Census will determine how hundreds of billions in federal funding is spent. This affects services in your community like school lunches, hospitals and roads.

### APPORTIONMENT & HOUSE OF REPRESENTATIVES

The census determines representation in the U.S. House of Representatives, so that all people, regardless of the size of their state are represented fairly in Congress.
