Farish Hall, room 318E
Houston, TX 77004

Site Description

Our mission is to empower Hispanic and African American boys and girls between the ages of 9-14 and their families to adopt a healthy lifestyle by incorporating healthy food choices, daily exercise, and positive self-esteem in a supportive environment. Students in this internship will have the opportunity to participate in research projects and community events, including health fairs. This internship will require some travel into the local community. Specifically, you will be working with our after-school programs Lace Up and Move or Fun with Food! if interning in the spring/fall, or our healthy lifestyle intervention if during the summer.
