

Account Status:

Employees with no Exchange account

University Information Technology (UIT) is in the process of retiring the Mail.uh.edu system. You will need to migrate your mailbox from the Mail.uh.edu system to the UH Exchange system. UH Exchange email accounts end with @central.uh.edu.

Please note that if you are an employee of the College of Business Administration (Exchange accounts end with @bauer.uh.edu) or the College of Optometry Administration (Exchange accounts end with @optometry.uh.edu), you should receive your new Exchange account from your respective college IT support personnel. All other University of Houston employees may obtain an Exchange account by :

- Contacting your local college IT support personnel
- Contacting University Information Technology (UIT) Support Center
 - Submit a Case: www.uh.edu/infotech/support-cases
 - Chat with IT Support staff at www.uh.edu/infotech/livechat
 - Call the IT Support Center at 713-743-1411
 - Visit us at Philip Guthrie Hall (PGH) room 116

Once you obtain your UH Exchange account, please follow the steps outlined in the UH_Mail_Retirement document for migrating your mail messages. The document can be downloaded at: <http://bit.ly/SP66QR>

Please note that you must have moved your mail messages and you must start using your new Exchange account by November 15, 2012. Your Mail.uh.edu account will then be disabled.
