SUBJECT: Voluntary Faculty Appointment Guidelines

**Purpose**
To provide University of Houston College of Medicine (UHCOM) leadership and faculty guidelines and structure surrounding the process assigning rank to incoming (new) voluntary faculty members.

**Background**
Voluntary faculty, upon application to the University of Houston College of Medicine, will be assigned a title of Voluntary Clinical Assistant Professor, Voluntary Clinical Associate Professor, or Voluntary Professor. The title assigned will mirror the most recent academic title held by the faculty member. If the proposed faculty member does not have a current academic appointment, or seeks an increase in title, the candidate’s experience as reflected in the listed grid, will guide the appropriate Department Chair in such assignment. Titles will be granted based on professional background and are independent of vocation.

Our goal is to acknowledge the time and effort these voluntary faculty give to the support and furthering of the UHCOM mission,

**Policy**
This policy is relevant to all voluntary faculty and all Chairs initiating appointments.

**Clinical Assistant Professor**
- Completion of post-graduate training appropriate to field
- 0 – 9 years of clinical practice (at least 50% time), where applicable
- Certification by an American Board of Medical Specialties, where applicable
