

SUBJECT MATTER EXPERT

AVAILABLE LIVE VIA DIGITAL STUDIO

Critical Infrastructure & Cybersecurity

ART CONKLIN

Associate Professor, Department of Information and Logistics Technology

Director, Center for Information Security Research and Education

EXPERTISE

- Information Security in Industrial Control Systems
- Secure Software Engineering
- Incident Response
- Information Assurance Curriculum & Instruction
- Risk/Threat Assessments
- User Interface Design and Evaluation

"We need the regulations. We don't need something brand new, we need to adopt what we know is working elsewhere and we need to stay away from prescriptive guidance and make it flexible."

- Conklin testimony before Federal Energy Regulatory Commission on supply chain risk management, Jan. 2016

PUBLICATIONS

- "Control Systems Personnel are from Mars: IT Personnel are from Venus," International Journal of Critical Infrastructure Protection
- "Information Security Foundations for the Interoperability of Electronic Health Records," International Journal of Healthcare and Technology Management (co-authored)

CREDENTIALS

- M.B.A., Information Systems, University of Texas at San Antonio
- M.S.E.E. , Space Systems Engineering, Naval Postgraduate School
- Ph.D., Business Administration, Information Systems, University of Texas at San Antonio
