

## Publisher policies on pre-published content

The table below summarizes the policies of several publishers regarding the reuse in a graduate thesis/dissertation of material that has been previously published in an article format by these publishers. If the publisher with whom you have published a previous article is listed here, you do not need to request permission to reuse the content. If the publisher is not listed here, you need to check with your advisor if the copyright of your published article belongs to the authors or the publisher, and contact the publisher for permission to reuse the material in your thesis/dissertation if the copyright remains with the publisher. In all cases, you need to give the full reference of your article in your thesis/dissertation and when you upload your thesis/dissertation on the Vireo website.

Publisher	Reuse of author's previously published article in author's thesis
American Association for the Advancement of Science (AAAS)	ALLOWS, with these special requirements for theses made available electronically: "the accepted version of the paper before Science's copy editing and production of the Work should be used and a link to the Work on the Science website included."
American Chemical Society	ALLOWS, with these special requirements: Author should secure written confirmation (via letter or email) from the respective ACS journal editor(s) to avoid potential conflicts with journal prior publication/embargo policies. Appropriate citation of the Published Work must be made. If the thesis or dissertation to be published is in electronic format, a direct link to the Published Work must also be included using your ACS Articles on Request link (see <a href="#">Policy on Theses and Dissertations</a> )
American Geophysical Union	ALLOWS, with these special requirements: "permissible as long as proper attribution is made to the published article."
American Institute of Physics	ALLOWS
American Physical Society	ALLOWS
American Society for Biochemistry and Molecular Biology	ALLOWS Applies to Journal of Biological Chemistry, Molecular & Cellular Proteomics and the Journal of Lipid Research
American Society for Clinical Investigation	ALLOWS

American Society for Microbiology	ALLOWS
Association for Computing Machinery (ACM)	ALLOWS
Elsevier	ALLOWS
IEEE	ALLOWS, with this special requirement: <a href="#">Requires copyright notice.</a>
Institute of Physics	ALLOWS
National Academy of Sciences	ALLOWS
Nature	ALLOWS
Royal Society of Chemistry	ALLOWS Reuse of material that was published originally by the Royal Society of Chemistry must be accompanied by the appropriate acknowledgement of the publication. The form of the acknowledgement is dependent on the journal in which it was published originally (see <a href="http://www.rsc.org/journals-books-databases/journal-authors-reviewers/licences-copyright-permissions/#reuse-permission-requests">http://www.rsc.org/journals-books-databases/journal-authors-reviewers/licences-copyright-permissions/#reuse-permission-requests</a> )
Springer	ALLOWS
Taylor & Francis	ALLOWS, with this requirement: "provided that acknowledgement to prior publication in the relevant Taylor & Francis journal is made explicit."
Wiley	ALLOWS, subject to any individual journal guidelines to the contrary.
