November 18, 2021

Honorable Greg Abbott, Governor  
Honorable Glenn Hegar, Texas Comptroller  
Jerry McGinty II, Executive Director, Legislative Budget Board  
Lisa Collier, First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of the University of Houston System for the year ended August 31, 2021, in compliance with Texas Government Code Annotated §2101.011 and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements-And Management's Discussion and Analysis-for State and Local Governments, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Ms. Leslie Fluharty at 713-743-1533. Ms. Andrea Tebo may be contacted at 713-743-8722 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

Kevin L. Draper  
Executive Director, Financial Reporting

Statement of Procedure Regarding  
Annual Financial Report

Present herein are the financial statements with detailed supportive schedules for the University of Houston System for the fiscal year ended August 31, 2021. These statements and detailed supportive schedules are in compliance with the guidelines in *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*, published by the Texas Comptroller of Public Accounts. Additionally, this report has been prepared in accordance with the requirements in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – For State and Local Governments*.

The State Auditor has not audited the accompanying annual financial statements and, therefore, an opinion has not been nor will be expressed on the financial statements and related information contained in this report. The information contained in the combined financial statements of the University of Houston System, and its related components, is part of and included in the State of Texas Comprehensive Annual Report. The Annual Financial Report of the University of Houston System is reviewed by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report, upon which an opinion is expressed.

**UNIVERSITY OF HOUSTON SYSTEM  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED AUGUST 31, 2021**

**NOTE 1: Summary of Significant Accounting Policies**

**Entity**

The University of Houston System (the System) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The System serves the state as the primary provider of educational and cultural opportunities, skilled employers and leaders, technical knowledge, and innovative research to the Houston metropolitan area and the Gulf Coast region. Houston and the upper Gulf Coast region represent approximately one fourth of the state's population and economy.

The System includes within this report all components as determined by an analysis of their relationship to the System as listed below.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

**Reporting Consideration for COVID-19 Response**

The CARES Act establishes and funds the Higher Education Emergency Relief Fund (HEERF). Sections 18004(a)(1) and 18004(c) of the CARES Act, which address the HEERF, allow institutions of higher education to use up to 50 percent of the funds they receive to cover any costs associated with significant changes to the delivery of instruction due to the coronavirus.

As of August 31, 2021, The University of Houston System used these funds to provide additional emergency financial aid grants to students, reimbursements and waivers for tuition, housing, room and board and other fee refunds for students; as well as providing additional technology hardware to students, such as laptops, or tablets, or covering the added cost of technology fees. These funds were additionally used for campus safety and operations; for purchasing, leasing or renting additional instructional equipment and supplies in order to reduce the number of students sharing equipment or supplies during a single class period and to provide time for disinfection between uses; as well as to enable distance learning, or upgrading campus Wi-Fi access or extending open networks to parking lots or open spaces. The System also expended funds to establish Spanish communications on the University website as well as expenses for staff to deliver customer services to students remotely.

The accompanying financial statements and related information have been prepared in conformity with the instructions contained in the State Comptroller's manual, *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*. The instructions and the accompanying report are designed to assist the Texas Comptroller of Public Accounts in compiling and preparing a Comprehensive Annual Financial Report for the State of Texas. Since the System's annual financial report is not subject to a separate financial audit, certain information, such as Management's Discussion and Analysis and a complete set of Government-Wide Financial Statements, are not included in the accompanying report. The System's financial statements are considered to be materially accurate in all respects.

**Blended Component Units**

No component units have been identified which should have been blended into an appropriated fund.

Discretely Presented Component Units

These component units are legally separate from the state, but are financially accountable to the state, or have a relationship with the state, such that exclusion would cause the financial statements to be misleading or incomplete. The component unit columns of the financial statements include the financial data of these entities.

No component units have been identified which should have been discretely presented in the financial statements.

**Fund Structure**

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

**Governmental Fund Types & Government-Wide Adjustment Fund Types**

General Fund

The General Fund is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds.

Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than for private-purpose trusts or for major capital projects) that are legally restricted to use for specified purposes.

Debt Service Funds

Debt Service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital Project Funds

Capital Project funds are used to account for financial resources used for the acquisition, repair, renovation or construction of major capital facilities (other than those financed by proprietary or similar trust funds).

Permanent Funds

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the state's programs.

Capital Asset Adjustment Fund Type

The Capital Asset Adjustment fund type will be used to convert governmental fund type capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

The Long-Term Liabilities Adjustment fund type will be used to convert governmental fund type debt from modified accrual to full accrual.

Other Adjustments Fund Type

The Other Adjustments fund type will be used to convert all other governmental fund type activity from modified accrual to full accrual.

**Proprietary Fund Types**

Enterprise Funds

Enterprise funds are used to account for any activity for which a fee is charged to external users for goods or services. Activities must be reported as enterprise funds if any one of the following criteria is met:

1. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity.
2. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges.
3. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs.

#### Internal Service Funds

Internal Service funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of a governmental unit, or to other governmental units within the state, on a cost-reimbursement basis.

#### **Fiduciary Fund Types**

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. When assets are held under the terms of a formal trust agreement, either a pension trust fund or a private purpose trust fund is used.

#### Pension Trust Funds

Pension trust funds are used to account for resources held in trust for the member and beneficiaries of defined benefit pension plans. A separate pension trust fund is used for each separate pension plan. Separate pension trust funds also may be established to account for supplemental pension benefits.

#### External Investment Trust Funds

External investment trust funds are used to account for the state's external portion of investment pools reported by the sponsoring government.

#### Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

#### Private-Purpose Trust Funds

Private-purpose trust funds are used to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments.

#### **Component Units**

The fund types of individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

Governmental Component Units are used to account for discretely presented component units that follow governmental fund accounting principles.

Proprietary Component Units are used to account for the discretely presented component units which follow proprietary fund measurement focus and accounting principles.

#### **Business-Type Activities**

The operations of universities are considered to be a Business-Type Activity. The System charges fees to external users for goods and services. Consequently, the accompanying financial statements are presented using the proprietary fund type structure.

### **Basis of Accounting**

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for by using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within 60 days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation, unpaid employee compensable leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, long-term claims and judgments, and full accrual revenues and expenses. The activity will be recognized in these fund types.

Proprietary funds, pension trust funds, external investment trust funds, and private-purpose trust funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Operating expenses for the enterprise and internal services funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

### **Budget and Budgetary Accounting**

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Additionally, the System prepares an annual budget which represents anticipated sources of revenues and authorized uses. This budget is approved by the System's Board of Regents.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

## **Assets, Liabilities, and Fund Balances/Net Position**

### **ASSETS**

#### **Cash and Cash Equivalents**

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

#### **Securities Lending Collateral**

Investments are stated at fair value in all funds, except pension trust funds, in accordance with GASB Statement 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. For pension trust funds, investments are required to be reported at fair value using the accrual basis of accounting in accordance with GASB Statement 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*.

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental and proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all exhaustible assets. Inexhaustible assets such as works of art and historical treasures, are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost, if actual historical cost is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Current Receivables - Other

Other receivables include year-end revenue accruals. This account can appear in governmental and proprietary fund types.

Non-Current Receivables - Other

Receivable balances not expected to be collected within one year of fiscal year end.

**LIABILITIES**

Accounts Payable

Accounts payable represent the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables - Other

Payables are the accrual at year-end of expenditure transactions. Payables may be included in either the governmental or proprietary fund types.

Non-Current Payables - Other

Payable balances not expected to be paid within one year of fiscal year end.

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes due upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the Statement of Net Position.

Capital Lease Obligations

Capital lease obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or non-current in the Statement of Net Position.

**Bonds Payable - General Obligation Bonds**

The unmatured principal of general obligations bonds is accounted for in the Long-term Liabilities column. Payables are reported separately as either current or non-current in the Statement of Net Position.

Bonds Payable are recorded at par. The bond proceeds are accounted for as an Other Financing Source in the governmental funds when received, and expenditures for payment of principal and interest are recorded in debt service funds when paid. These amounts are adjusted in the Long-Term Liabilities column.

**Bonds Payable - Revenue Bonds**

Revenue bonds are generally accounted for in the proprietary funds. The Bonds Payable are reported at par, less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis with amortization of discount or premium. Payables are reported separately as either current or non-current in the Statement of Net Position.

**FUND BALANCE/NET POSITION**

The difference between fund assets and liabilities is Net Position on the government-wide, proprietary, and fiduciary fund statements; and the Fund Balance is the difference between fund assets and liabilities on the governmental fund statements.

**Reservations of Fund Balance**

Fund balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use and are not available for expenditure.

**Reserved for Encumbrances**

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

**Unreserved/Undesignated**

This represents the unappropriated balance at year-end.

**Invested In Capital Assets, Net Of Related Debt**

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

**Restricted Net Position**

Restricted net position result when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

**Unrestricted Net Position**

Unrestricted net position consist of net position, which do not meet the definition of the two preceding categories. Unrestricted net position often have constraints on resources, which are imposed by management, but can be removed or modified.

**INTERFUND ACTIVITIES AND BALANCES**

The System has the following types of transactions between funds:

**Transfers**

Legally required transfers that are reported when incurred as Transfers In by the recipient fund and as Transfers Out by the disbursing fund.

Reimbursements

Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

Interfund Receivables and Payables

Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, it is classified as Current. Repayment for two (or more) years is classified as Non-Current.

Interfund Sales and Purchases

Charges or collections for services rendered by one fund to another are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund. The composition of the System's interfund activities and balances are presented in Note 12.

**Custodial Credit Risk (Investments)** – The System has no direct investments held by its custodians that are not covered by insurance.

**Foreign Currency Risk (Investments)** – The System has no direct investments subject to foreign currency risk, nor any denominated in a foreign currency.

**Credit Risk (Investments)** – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The general investment policy of the System limits investments in debt securities that are not in the top three investment grade ratings issued by nationally recognized statistical rating organizations to 5% of total investments. As of August 31, 2021, the System had no direct investment in securities with credit risk exposure that exceeded its policy limit. As of August 31, 2021, the System's credit quality distribution for securities with credit risk exposure was:

**Concentration of credit risk** is the risk of loss attributable to the magnitude of investment in a single issuer. As of August 31, 2021, the System's concentration of credit risk in any single issuer did not exceed 5% of total investment assets as reported on the Statement of Net Position.

**Reverse Repurchase Agreements**

The System has no investments in reverse repurchase agreements.

**Securities Lending**

The System does not participate in a security-lending program.

**NOTE 4: Short-Term Debt**

In the prior fiscal year, the System issued no commercial paper (Consolidated Revenue Commercial Paper Program, Series A), and no additional commercial paper was issued during fiscal year 2021.

**Table 4 – Commercial Paper Activity**

- The University has no unused lines of credit.
- Although the University pledges to pay debt service first from all revenue sources and if the institution went bankrupt, the University would have to pay the bonds first; however, the University does not specifically pledge any assets as collateral.
- Terms specified in debt agreements related to significant:
  - Events of default with finance-related consequences – Debtor would go through channels as would any state agency, so the University does not have any of these.
  - Termination events with finance-related consequences – University has no termination events and no changes in repayment.
  - Subjective acceleration clauses – University is only one that can say when we are going to pay early (min 10 years), so no disclosures are needed.
- Separate information about direct borrowings and direct placements of debt from other debt – University does not have short-term direct borrowings nor direct placements, so no disclosure separation is needed.

### Claims and Judgments

At August 31, 2021, various lawsuits and claims involving the System were pending. While the ultimate liability, if any, with respect to litigation and other claims asserted against the System cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is not expected to have a material effect on System accounts.

### Capital Lease-Direct Placement

See Note 8 for detailed capital lease note disclosure requirements.

### Notes and Loans Payable

As of August 31, 2021, the System had no notes and loans payable.

### Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in

the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Position. An expense and liability for proprietary fund types are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Full-time state employees earn annual leave from eight to twenty-one hours per month depending on the respective employees' years of State employment. The State's policy is that an employee may carry his accrued leave forward from one fiscal year to another fiscal year with a maximum number of hours up to 532 for those employees with 35 or more years of state service. Accrued leave in excess of the normal maximum was converted to sick leave at the conclusion of fiscal year 2021. Employees with at least six months of State service who terminate their employment are entitled to payment for all accumulated annual leave up to the maximum allowed.

Non-debt liability obligations are usually paid from the same funding source from which the employee's salary or wage compensation was paid.

Lump sum payments made to employees, who separated from state service during the 2021 fiscal year, for accrued vacation and compensatory leave totaled \$ 3,701,897.57.

    - \$16,425,000; all bonds authorized have been issued (UH – \$15,392,000, and UHV – \$1,033,000).
    - Source of revenue for debt service – Tuition and various other fees and revenues and balances that may be legally available for payment of debt obligations.
    - Average interest rate of bonds refunded – 2.000000%.
    - Net proceeds from refunding series - 16,803,337.50, after receipt of bond premium of \$643,722.85 and payment of \$265,385.35 in underwriting fees, insurance, and other issuance costs.
    - Sufficient funds were deposited with an escrow agent to provide for full payment of all outstanding obligations related to the 2011A series bonds, after they were called for early redemption on 05-11-2021.
    - The advance refunded 2011A series bonds maturing subsequent to 02-15-2031 are considered fully defeased and the obligation for those bonds has been removed from the reported liabilities of the System.
    - Refunding of the 2011A series bonds reduced the System's debt service payments over the life of the bond issues by approximately \$6,004,800.
    - Economic gain - \$5,448,107.01; the difference between the net present value of the old and new debt service payments.
    - Accounting gain (deferred inflow of resources) - \$3,083,859.57; the accounting gain (the difference between the reacquisition price and the net carrying value of the refunded bonds) resulted from the advance refunding.

• **Consolidated Revenue Refunding Bonds, Series 2021-B**

- To refund \$2,870,000 of Consolidated Revenue and Refunding Bonds, Series 2011B; and \$28,920,000 of Consolidated Revenue and Refunding Bonds, Series 2013B.

- Source of revenue for debt service – Tuition and various other fees and revenues and balances that may be legally available for payment of debt obligations.
- Average interest rate of bonds refunded – 1.529290%.
- Net proceeds from refunding series - \$33,091,838.54, after receipt of bond premium of \$490,391.40 and payment of \$518,552.86 in underwriting fees, insurance, and other issuance costs.
- Sufficient funds were deposited with an escrow agent to provide for full payment of all outstanding obligations related to the 2011B series bonds, after they were called for early redemption on 05-11-2021.
- Sufficient funds were deposited with an escrow agent to provide for full payment of all outstanding obligations related to the 2013B series bonds, after they were called for early redemption on 02-15-2022.
- The advance refunded 2011B series bonds maturing subsequent to 02-15-2022 are considered fully defeased and the obligation for those bonds has been removed from the reported liabilities of the System.
- The advance refunded 2013B series bonds maturing subsequent to 02-15-2023 are considered fully defeased and the obligation for those bonds has been removed from the reported liabilities of the System.
- Refunding of the 2011B and 2013B series bonds reduced the System's debt service payments over the life of the bond issues by approximately \$3,876,517.59.
- Economic gain - \$3,599,289.94; the difference between the net present value of the old and new debt service payments.
- Accounting loss (deferred inflow of resources) - \$1,108,401.98; the accounting loss (the difference between the reacquisition price and the net carrying value of the refunded bonds) resulted from the advance refunding.

**Pledged Future Revenues**

GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, makes a basic distinction between sales of receivables and future revenues, on the one hand, and the pledging of receivables or future revenues to repay a borrowing (a collateralized borrowing), on the other. The following table provides the pledged future revenue information for the System's revenue bonds:

	Government Activities	Business-Type Activities	Component Units
Pledged revenue required for future principal and interest on existing revenue bonds	\$ NA	\$ 2,030,621,478.80	\$ NA
Term of commitment year ending 08/31	NA	2052	NA
Percentage of revenue pledged	NA	100%	NA
Current year pledged revenue	\$ NA	\$ 1,005,060,692.49	\$ NA
Current year principal and interest paid	\$ NA	\$ 139,713,600.76	\$ NA

Pledged revenue sources:

Governmental activities – None.

Business-type activities – Operating income from tuition and fees, and sales and service revenue from auxiliary and non-auxiliary activities including intercollegiate athletics, residential life, parking, rental of facilities, continuing education, royalties, publications, clinics, bookstores, and vending commissions.

Component Units – None.

### Capital Leases

The System has entered into long-term leases for financing the purchase of certain capital assets. Such leases are classified as capital leases for accounting purposes and are recorded at the present value of the future minimum lease payments at the inception of the lease. A summary of the original capitalized costs of all such property under lease in addition to the accumulated depreciation as of August 31, 2021 is as follows:

The above capital lease information is related in entirety to a lease of building space from the City of Pearland, Texas by the University of Houston System, for the use and benefit of University of Houston – Clear Lake.

Regarding GASB 88 disclosure for the capital lease reported in Notes 5 and 8 as a financed purchase:

- a) UH System does not have any unused lines of credit;
- b) UH System has not pledged assets as collateral for debt;
- c) UH System's debt (lease) agreement includes terms for events of default with finance related consequences, as detailed below:

The System's outstanding capital lease payments from direct placements related to business-type activities of \$5,280,589.06 contain a provision that in the event of default, the System will be liable for damages equal to the total of (i) the cost of recovering the leased premises, (ii) the cost of removing and storing personal property, (iii) the unpaid amount earned at the time of lease termination plus interest, (iv) the present value (discounted at 8% per annum) of the balance due for the remainder of the term less the present value of the fair market rental value and the cost to prepare the premises for occupancy, and (v) any other sum owed under the lease agreement.

#### **NOTE 9: Defined Benefit Pension Plans and Defined Contribution Plan**

The State has joint contributory retirement plans for substantially all its employees. The System participates in the plans administered by the Teachers Retirement System of Texas. Future pension costs are the liabilities of the Retirement System. The Retirement System does not account for each State agency separately. Annual financial reports prepared by the Retirement System include audited financial statements and actuarial assumptions and conclusions.

The state has also established an Optional Retirement Program for institutions of higher education. Participation in the Optional Retirement Program is available to certain eligible employees and is in lieu of participation in the Teacher Retirement System. Since contributions are invested in individual annuity contracts, neither the State nor the System have any additional or unfunded liability for this program.

The contributions made by plan members and employers for the fiscal year ended August 31, 2021 are:

	TRS Participants	ORP Participants	Total Contributions
Member Contributions	\$ 30,117,429.59	\$ 14,690,336.00	\$ 44,807,765.59

Total	<u>\$ 59,615,497.93</u>	<u>\$ 30,334,781.00</u>	<u>\$ 89,950,278.93</u>

#### **NOTE 10: Deferred Compensation (Administering Agencies Only)**

Not Applicable.

#### **NOTE 11: Postemployment Benefits Other Than Pensions**

Not Applicable.

#### **NOTE 12: Interfund Activity and Transactions**

Not Applicable.

**NOTE 13: Continuance Subject to Review**

The System is not subject to the provisions of the Texas Sunset Act (Chapter 325, Texas Government Code Annotated). The Act provides for the regular assessment of the continuing need for state agencies to exist. Certain agencies, such as institutions of higher education and courts, are not subject to the Sunset Act.

**NOTE 14: Adjustments to Fund Balances and Net Position**

During fiscal year 2021, certain accounting changes or adjustments were made that required the restatement of fund balances or net position. The restatements are presented below:

**Table 14.1 – Restatement of Net Position for FY2021**

	Enterprise Funds
Fund Balance/Net Position, 09/01/21	\$ 1,790,685,337.90
Current Year Restatements	76,135.63
Fund Balance/Net Position, 09/01/21 Restated	<u>\$ 1,790,761,473.53</u>

**Table 14.2 – Changes in Net Position for FY2020**

	Enterprise Funds
Change in Net Position, 08/31/20	\$ 88,983,534.09
Current Year Restatements	76,135.63
Change in Net Position, 08/31/20 Restated	<u>\$ 89,059,669.72</u>

A restatement of \$76,135.63 was due to the discovery of unreported equipment during the physical inventory, which resulted in a restatement to Capital Equipment at the University of Houston.

**NOTE 15: Contingencies and Commitments****Unpaid Claims and Lawsuits**

As mentioned in Note 5, various lawsuits and claims involving the System were pending. While the ultimate liability, if any, remains uncertain, management does not expect any possible adverse ruling to have a material effect on the System accounts.

**Federal Assistance**

The System has received several federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to a request for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowances, if any, will be immaterial.

**Arbitrage**

Rebatable arbitrage is defined by Internal Revenue Code, Section 148, as earnings on investments purchased with the gross proceeds of a bond issue in excess of the amount that would have been earned if the investment were invested at a yield equal to the yield on the bond issue. The rebatable arbitrage must be paid to the federal government.

The System monitors its investments to restrict earnings to a yield less than the bond issue and, therefore, limit any arbitrage liability. The System estimates that rebatable arbitrage liability, if any, will be immaterial to its overall financial condition.

**Construction Commitments**

The System has several contractual agreements with various external housing management entities to construct, maintain, and manage off-campus student housing complexes. Under certain circumstances, the System may have contingent liabilities to these entities. Based on prior experience, previous years' liabilities have been immaterial, and management believes no such liabilities currently exist. Additional information is provided in Note 19.

**Investment Funds**

The System has entered into contractual commitments to fund private investments made by external investment managers. Investments in which a public market does not exist have an inherent uncertainty of valuation. Because of this uncertainty, the estimate of fair value for alternative investments may differ from the values that would have been used had a ready market existed. As displayed in Note 3, the fair value of Externally Managed Investments is: Domestic – \$259,880,809.39 and International – \$274,372,173.80. The total amount of unfunded commitment is: \$124,032,937.00, composed of Domestic – \$58,829,822.00 and International – \$65,203,115.00.

**NOTE 16: Subsequent Events**

As of the date this report was issued, the State of Texas approved TRB's in the amount of \$339.4 for the System at the last special session. There will be a Board of Regents meeting on December 2<sup>nd</sup> to discuss the issuing of bonds in 2022. There have been no additional events since August 31, 2021 that had a significant financial impact and require disclosure.

**NOTE 17: Risk Management**

The System is exposed to a variety of civil claims resulting from the performance of its duties. It is System policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

The System assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently, there is the purchase of some commercial insurance, and the System is not involved in any risk pools with other government entities.

The System's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred, but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience, and economic factors. There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years. Changes in the balances of the agency's claims liabilities during fiscal 2020 and 2021 were:

**Table 17.1 – Balance of Claims Activity**

	Beginning Balance	Increase	Decrease	Ending Balance
2021	\$ 677,700.89	\$ 749,589.20	\$ 1,342,038.74	\$ 85,251.35
2020	\$ 338,911.39	\$ 1,295,194.24	\$ 956,404.74	\$ 677,700.89

Liabilities include an amount for estimated future workers' compensation and unemployment claims that have been incurred as of the fiscal year end, but that have not been reported. 2021 increases and decreases also include current year assessments and payments of legal settlements in the amount of \$345,703.00. Payments for worker's compensation claims of \$588,917.33 and for unemployment claims of \$407,418.41 make up the remainder of the decrease total of \$1,342,038.74.

**NOTE 22: Donor Restricted Endowments**

Expenditure of endowed funds is not permitted without the express consent of the donor. The majority of the System's endowments are held in perpetuity. In many cases, endowment earnings are expendable for student financial assistance or other purposes as specified by the donor. In other cases, endowment earnings are reinvested.

The Regents of the University of Houston System have established an endowment policy which attempts to balance the long-term objective of maintaining the purchasing power of the endowment with the goal of providing a reasonable, predictable, stable, and sustainable level of income to support current needs. Payout is derived from interest, dividends, and realized gains net of portfolio management fees. The historical rate of payout has been 4 to 5 percent, with any change to this range to be approved by the Board.

The net appreciation (cumulative and unexpended) on donor-restricted endowments, presented below in Table 22.1, is available for authorization and expenditure by the System:

**Table 22.1 – Net Appreciation of Endowments**

Donor-Restricted Endowments	Amount of Net Appreciation/(Depreciation)	Reported in Net Position
True Endowments	\$ 319,766,287.70	Restricted Expendable
Term Endowments	1,356,527.68	Restricted Expendable
Total	<u>\$ 321,122,815.38</u>	

(A fair market value increase of \$209,205,447.69 was recognized for endowments at or above historical cost, and a fair market value increase of \$0.00 was recognized for endowments below historical cost.)

Variances from prior year-end for expendable and nonexpendable balances are shown in Table 22.2:

**Table 22.2 - Changes from Prior Year Balances:**

Endowment Funds	Increase/(Decrease)	Reason for Change
<b>Expendable Balances</b>		
True Endowments	182,277,755.59	Fair value increase in portfolio

**NOTE 28: Deferred Outflows of Resources and Deferred Inflows of Resources**

In fiscal 2021, the System reported deferred outflows of resources and deferred inflows of resources in connection with the TRS pension plan.

As of August 31, 2021	Deferred Outflows of Resources	Deferred Inflows of Resources
Loss/Gain on Bond Refunding	\$ 952,290.90	\$ 0.00
Pension Plans	150,192,713.00	86,315,691.00
Other Post-Employment Benefits	356,896,044.00	178,565,594.00
Total	<u>\$ 508,041,047.90</u>	<u>\$ 264,881,285.00</u>

Deferred outflows of resources represent a consumption of net position that applies to a future period and therefore, will not be recognized as an expense or expenditure until that time.

Deferred inflows of resources represent an acquisition of net position that applies to a future period and therefore will not be recognized as revenue until that time.
