Division of Administration and Finance
Financial Reporting Department

November 18, 2024

Honorable Greg Abbott, Governor
Honorable Glenn Hegar, Texas Comptroller
Jerry McGinty II, Executive Director, Legislative Budget Board
Lisa R. Collier, State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of the University of Houston System for the year ended August 31, 2024, in compliance with Texas Government Code Annotated §2101.011 and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements-And Management's Discussion and Analysis-for State and Local Governments, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Mrs. Leslie Fluharty at 713-743-1533. Ms. Andrea Tebo may be contacted at 713-743-8722 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

Lavonda Luckett
Executive Director, Financial Reporting

Statement of Procedure Regarding
Annual Financial Report

Present herein are the financial statements with detailed supportive schedules for the University of Houston System for the fiscal year ended August 31, 2024. These statements and detailed supportive schedules are in compliance with the guidelines in *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*, published by the Texas Comptroller of Public Accounts. Additionally, this report has been prepared in accordance with the requirements in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – For State and Local Governments*.

The State Auditor has not audited the accompanying annual financial statements and, therefore, an opinion has not been nor will be expressed on the financial statements and related information contained in this report. The information contained in the combined financial statements of the University of Houston System, and its related components, is part of and included in the State of Texas Comprehensive Annual Report. The Annual Financial Report of the University of Houston System is reviewed by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report, upon which an opinion is expressed.

**UNIVERSITY OF HOUSTON SYSTEM
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 1: Summary of Significant Accounting Policies

Entity

The University of Houston System (the System) is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The System serves the state as the primary provider of educational and cultural opportunities, skilled employers and leaders, technical knowledge, and innovative research to the Houston metropolitan area and the Gulf Coast region. Houston and the upper Gulf Coast region represent approximately one fourth of the state's population and economy.

The System includes within this report all components as determined by an analysis of their relationship to the System as listed below.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

The accompanying financial statements and related information have been prepared in conformity with the instructions contained in the State Comptroller's manual, *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*. The instructions and the accompanying report are designed to assist the Texas Comptroller of Public Accounts in compiling and preparing a Comprehensive Annual Financial Report for the State of Texas. Since the System's annual financial report is not subject to a separate financial audit, certain information, such as Management's Discussion and Analysis and a complete set of Government-Wide Financial Statements, are not included in the accompanying report. The System's financial statements are considered to be materially accurate in all respects.

Blended Component Units

No component units have been identified which should have been blended into an appropriated fund.

Discretely Presented Component Units

These component units are legally separate from the state, but are financially accountable to the state, or have a relationship with the state, such that exclusion would cause the financial statements to be misleading or incomplete. The component unit columns of the financial statements include the financial data of these entities.

No component units have been identified which should have been discretely presented in the financial statements.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types & Government-Wide Adjustment Fund Types

General Fund

The General Fund is the principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds.

Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue sources (other than for private-purpose trusts or for major capital projects) that are legally restricted to use for specified purposes.

Debt Service Funds

Debt Service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Capital Project Funds

Capital Project funds are used to account for financial resources used for the acquisition, repair, renovation or construction of major capital facilities (other than those financed by proprietary or similar trust funds).

Permanent Funds

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the state's programs.

Capital Asset Adjustment Fund Type

The Capital Asset Adjustment fund type will be used to convert governmental fund type capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

The Long-Term Liabilities Adjustment fund type will be used to convert governmental fund type debt from modified accrual to full accrual.

Other Adjustments Fund Type

The Other Adjustments fund type will be used to convert all other governmental fund type activity from modified accrual to full accrual.

Proprietary Fund Types

Enterprise Funds

Enterprise funds are used to account for any activity for which a fee is charged to external users for goods or services. Activities must be reported as enterprise funds if any one of the following criteria is met:

1. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity.
2. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges.
3. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs.

Internal Service Funds

Internal Service funds are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of a governmental unit, or to other governmental units within the state, on a cost-reimbursement basis.

Fiduciary Fund Types

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. When assets are held under the terms of a formal trust agreement, either a pension trust fund or a private purpose trust fund is used.

Pension Trust Funds

Pension trust funds are used to account for resources held in trust for the member and beneficiaries of defined benefit pension plans. A separate pension trust fund is used for each separate pension plan. Separate pension trust funds also may be established to account for supplemental pension benefits.

External Investment Trust Funds

External investment trust funds are used to account for the state's external portion of investment pools reported by the sponsoring government.

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Private-Purpose Trust Funds

Private-purpose trust funds are used to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments.

Component Units

The fund types of individual discrete component units are available from the component units' separately issued financial statements. Additional information about component units can be found in Note 19.

Governmental Component Units are used to account for discretely presented component units that follow governmental fund accounting principles.

Proprietary Component Units are used to account for the discretely presented component units which follow proprietary fund measurement focus and accounting principles.

Business-Type Activities

The operations of universities are considered to be a Business-Type Activity. The System charges fees to external users for goods and services. Consequently, the accompanying financial statements are presented using the proprietary fund type structure.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for by using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within 60 days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. This includes capital assets, accumulated depreciation, unpaid employee compensable leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, long-term claims and judgments, and full accrual revenues and expenses. The activity will be recognized in these fund types.

Proprietary funds, pension trust funds, external investment trust funds, and private-purpose trust funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Operating expenses for the enterprise and internal services funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Budget and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act).

Additionally, the System prepares an annual budget which represents anticipated sources of revenues and authorized uses. This budget is approved by the System's Board of Regents.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, Deferred Inflows and Outflows and Fund Balances/Net Position

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Securities Lending Collateral

Investments are stated at fair value in all funds, except pension trust funds, in accordance with GASB Statement 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. For pension trust funds, investments are required to be reported at fair value using the accrual basis of accounting in accordance with GASB Statement 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*.

Securities lent are reported as assets on the balance sheet. The costs of securities lending transactions are reported as expenditures or expenses in the Operating Statement. These costs are reported at gross.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental and proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all exhaustible assets. Inexhaustible assets such as works of art and historical treasures, are not depreciated. Road and highway infrastructure is reported on the modified basis. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost, if actual historical cost is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Current Receivables - Other

Other receivables include year-end revenue accruals. This account can appear in governmental and proprietary fund types.

Non-Current Receivables - Other

Receivable balances not expected to be collected within one year of fiscal year end.

LIABILITIES

Accounts Payable

Accounts payable represent the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables - Other

Payables are the accrual at year-end of expenditure transactions. Payables may be included in either the governmental or proprietary fund types.

Non-Current Payables - Other

Payable balances not expected to be paid within one year of fiscal year end.

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes due upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the Statement of Net Position.

Lease Liabilities

Lease liability represents the amount recognized by a lessee on its financial statements regarding its leases. It is initially measured at the present value of lease payments and is remeasured whenever there is a change in lease payments or lease modification. Liabilities are reported separately as either current or noncurrent.

Bonds Payable - General Obligation Bonds

The unmatured principal of general obligations bonds is accounted for in the Long-term Liabilities column. Payables are reported separately as either current or non-current in the Statement of Net Position.

Bonds Payable are recorded at par. The bond proceeds are accounted for as an Other Financing Source in the governmental funds when received, and expenditures for payment of principal and interest are recorded in debt service funds when paid. These amounts are adjusted in the Long-Term Liabilities column.

Bonds Payable - Revenue Bonds

Revenue bonds are generally accounted for in the proprietary funds. The Bonds Payable are reported at par, less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis with amortization of discount or premium. Payables are reported separately as either current or non-current in the Statement of Net Position.

DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED INFLOWS OF RESOURCES

The Statement of Net Position includes separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources are defined as the consumption of net assets applicable to a future reporting period, and have a positive effect on net position, similar to assets. Deferred inflows of resources are defined as the acquisition of net assets applicable to a future reporting period, and have a negative effect on net position, similar to liabilities. Additional details are provided in Note 28 - Deferred Outflows of Resources and Deferred Inflows of Resources.

FUND BALANCE/NET POSITION

The difference between fund assets, liabilities and deferred inflows and outflows of resources; is Net Position on the government-wide, proprietary, and fiduciary fund statements.

Reservations of Fund Balance

Fund balances for governmental funds are classified as either reserved or unreserved in the fund financial statements. Reservations are legally restricted to a specific future use and are not available for expenditure.

Reserved for Encumbrances

This represents commitments of the value of contracts awarded or assets ordered prior to year-end but not received as of that date. Encumbrances are not included with expenditures or liabilities. They represent current resources designated for specific expenditures in subsequent operating periods.

Unreserved/Undesignated

This represents the unappropriated balance at year-end.

Invested In Capital Assets, Net Of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Position

Restricted net position result when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net position consist of net position, which do not meet the definition of the two preceding categories. Unrestricted net position often have constraints on resources, which are imposed by management, but can be removed or modified.

INTERFUND ACTIVITIES AND BALANCES

The System has the following types of transactions between funds:

Transfers

Legally required transfers that are reported when incurred as Transfers In by the recipient fund and as Transfers Out by the disbursing fund.

Reimbursements

Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

Interfund Receivables and Payables

Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, it is classified as Current. Repayment for two (or more) years is classified as Non-Current.

Interfund Sales and Purchases

Charges or collections for services rendered by one fund to another are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund. The composition of the System's interfund activities and balances are presented in Note 12.

Custodial Credit Risk (Investments) – The System has no direct investments held by its custodians that are not covered by insurance.

Foreign Currency Risk (Investments) – The System has no direct investments subject to foreign currency risk, nor any denominated in a foreign currency.

Credit Risk (Investments) – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The general investment policy of the System limits investments in debt securities that are not in the top three investment grade ratings issued by nationally recognized statistical rating organizations to 5% of total investments. As of August 31, 2024, the System had no direct investment in securities with credit risk exposure that exceeded its policy limit. As of August 31, 2024, the System's credit quality distribution for securities with credit risk exposure was:

Investments as Rated by Standard & Poor's

Fund Type	GAAP Fund	Investment Type	AAAf	AAAmm	AAf	Af	BBBf	NR

		Miscellaneous Investments			\$1,564,026.25			

Concentration of credit risk is the risk of loss attributable to the magnitude of investment in a single issuer. As of August 31, 2024, the System's concentration of credit risk in any single issuer did not exceed 5% of total investment assets as reported on the Statement of Net Position.

Reverse Repurchase Agreements

The System has no investments in reverse repurchase agreements.

Securities Lending

The System does not participate in a security-lending program.

Texas University Fund

The Texas University Fund (TUF) is a \$4.2 billion endowment created to support research universities and is administered by the State of Texas. By acts of the Legislature and provisions of the State Constitution, the net income of the TUF is allocated to Texas universities that meet specific thresholds for expenditures of federal and private research funding and research doctoral degrees awarded. The initial four universities included in the funds distribution are the University of Houston, University of North Texas, Texas Tech and Texas State University. The TUF endowment is not reflected in the financial statements of the University of Houston System except for the portion distributed to the University of Houston System, which is recorded as Legislative Appropriations and Legislative Transfers In. For the fiscal year ended August 31, 2024, the System's share of the TUF distribution was \$48,271,059.00.

NOTE 4: Short-Term Debt

In the prior fiscal year, the System issued commercial paper (Consolidated Revenue Commercial Paper Program, Series A) to provide interim financing for renovation and construction projects, and no additional commercial paper was issued during fiscal year 2024.

Table 4 – Commercial Paper Activity

Business-Type Activities	Balance 9/01/23	Additions	Reductions	Balance 8/31/24
Commercial Paper	\$ 28,411,000.00	\$ 28,505,000.00	\$ 2,000,000.00	\$ 54,916,000.00

- The University has no unused lines of credit.
- Although the University pledges to pay debt service first from all revenue sources and if the institution went bankrupt, the University would have to pay the bonds first; however, the University does not specifically pledge any assets as collateral.
- Terms specified in debt agreements related to significant:
 - Events of default with finance-related consequences – Debtor would go through channels as would any state agency, so the University does not have any of these.
 - Termination events with finance-related consequences – University has no termination events and no changes in repayment.
 - Subjective acceleration clauses – University is only one that can say when we are going to pay early (min 10 years), so no disclosures are needed.
- Separate information about direct borrowings and direct placements of debt from other debt – University does not have short-term direct borrowings nor direct placements, so no disclosure separation is needed.

NOTE 5: Long-Term Liabilities**Changes in Long-Term Liabilities**

During the year ended August 31, 2024, the following changes, presented in Table 5.1, occurred in liabilities:

Claims and Judgments

At August 31, 2024, various lawsuits and claims involving the System were pending. While the ultimate liability, if any, with respect to litigation and other claims asserted against the System cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is not expected to have a material effect on System accounts.

Right to Use Lease Obligations

The System is a lessee for various noncancelable leases of buildings and equipment. For leases with a maximum possible term of 12 months or more the System recognizes a lease liability and an intangible right to use lease asset. At the commencement of a lease the System initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. Additional information on the System's right to use lease obligations is provided in Note 8. Right to use lease asset detail is provided in Note 2.

Right to Use Subscription Obligations

The System has various non-cancellable subscription obligations of information technology. For subscriptions with a maximum possible term of 12 months or more the System recognizes a lease liability and an intangible right to use subscription obligation. At the commencement of the subscription, the System initially measures the lease liability at the present value of payments expected to be made during the obligation term. Subsequently, the lease liability is reduced by the principal portion of obligation payments made. Additional information on the System's right to use subscription obligations is provided in Note 2 and Note 8.

Notes and Loans – Direct Placement

The System has a capital lease previously recorded in Note 8.

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Position. An expense and liability for proprietary fund types are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Full-time state employees earn annual leave from eight to twenty-one hours per month depending on the respective employees' years of State employment. The State's policy is that an employee may carry his accrued leave forward from one fiscal year to another fiscal year with a maximum number of hours up to 532 for those employees with 35 or more years of state service. Accrued leave in excess of the normal maximum was converted to sick leave at the conclusion of fiscal year 2024. Employees with at least six months of State service who terminate their employment are entitled to payment for all accumulated annual leave up to the maximum allowed.

Non-debt liability obligations are usually paid from the same funding source from which the employee's salary or wage compensation was paid.

Lump sum payments made to employees, who separated from state service during the 2024 fiscal year, for accrued vacation and compensatory leave totaled \$ 3,436,750.07.

Revenue Bonds Payable

See Note 6 for required Revenue Bond disclosures.

NOTE 6: Bonded Indebtedness

Bonds Payable

Detailed supplemental bond information is disclosed in Schedule 2-A, Miscellaneous Bond Information; Schedule 2-B, Changes in Bonded Indebtedness; Schedule 2-C, Debt Service Requirements; Schedule 2-D, Analysis of Funds Available for Debt Service; Schedule 2-E, Defeased Bonds Outstanding; and Schedule 2-F, Early Extinguishment and Refunding.

Revenue Bonds

At August 31, 2024, the System had no bonds payable classified as Revenue Bonds.

General Obligation Bonds

At August 31, 2024, the System had no bonds payable classified as General Obligation Bonds.

Refunding Bonds

- **Consolidated Revenue and Refunding Bonds, Series 2013-B**
 - To (a) defease certain outstanding commercial paper notes of the System and (b) finance the acquisition, purchase, construction, improvement, enlargement, and equipping of property, buildings, structures, activities, services, operations and other facilities, roads, or related infrastructure for or on behalf of the System, including individual campuses of the System.
 - In addition to the defeasement of the commercial paper note above, the proceeds were used to finance the construction of a Football Stadium (UH), a Multidisciplinary Research and Engineering Building (UH), UH Energy Research Park renovations and improvements (UH), and Jaguar Court Residence Facility (UHV).
 - Issued 9-17-2013.
 - \$102,420,000; all bonds authorized have been issued (UH – \$101,200,000 and UHV – \$1,220,000).
 - Source of revenue for debt service – Designated tuition and various other fees and revenues and balances that may be legally available for payment of debt obligations.
 - Sufficient funds from proceeds of advance refunding bonds were deposited in FY20 with an escrow agent to provide for full payment of certain outstanding obligations related to the 2013B series bonds that mature subsequent to 02-15-2029 totaling \$37,805,000, after they are called for early redemption on 02-15-2022.
- **Consolidated Revenue Refunding Bonds, Series 2014**
 - To refund \$18,385,000 of Consolidated Revenue Bonds, Series 2006; and \$32,715,000 of Consolidated Revenue and Refunding Bonds, Series 2006.
 - Issued 11-18-2014.
 - \$47,915,000; all bonds authorized have been issued (UH – \$29,525,000, UHD – \$17,765,000, and UHV – \$625,000).
 - Source of revenue for debt service – Tuition and various other fees and revenues and balances that may be legally available for payment of debt obligations. (Funding for fiscal year 2024 partially from Legislative Appropriation-Tuition Revenue Bonds.)
 - Average interest rate of bonds refunded - 4.67%.
 - Net proceeds from refunding series - \$52,309,205.77, after receipt of bond premium of \$5,037,241.05 and payment of \$643,035.28 in underwriting fees, insurance, and other issuance costs.
 - Sufficient funds were deposited with an escrow agent to provide for full payment of all outstanding obligations related to the 2006 series bonds, after they were called for early redemption on 02-15-2015.
 - The advance refunded 2006 series bonds maturing subsequent to 02-15-2015 are considered fully defeased and the obligation for those bonds has been removed from the reported liabilities of the System.
 - Refunding of the 2006 series bonds reduced the System's debt service payments over the life of the bond issues by approximately \$9,051,334.58.
 - Economic gain - \$7,400,593.85; the difference between the net present value of the old and new debt service payments.
 - Accounting gain (deferred inflow of resources) - \$445,456.16; the accounting gain (the difference between the reacquisition price and the net carrying value of the refunded bonds) resulted from the advance refunding.
- **Consolidated Revenue and Refunding Bonds, Series 2016-A**
 - To (a) refund and defease \$67,525,000 of Consolidated Revenue and Refunding Bonds, Series 2008; and (b) finance the acquisition, purchase, construction, improvement, enlargement, and equipping of property, buildings, structures, activities, services, operations and other facilities, roads, or related infrastructure for or on behalf of the System, including individual campuses of the System.

- In addition to the defeasement of the bonds noted above, the proceeds were used to finance the acquisition, construction, or renovation of Sophomore housing facilities – 3200 N. Ben Wilson Residence Facility (UHV), and (b) to defease certain outstanding commercial paper notes of the System.
 - Issued 2-16-2016.
 - \$100,650,000; all bonds authorized have been issued (\$63,605,000 refunding bonds: UHSA - \$10,260,000, UH – \$49,480,000, and UHV – \$3,865,000; and \$37,045,000 revenue bonds: UH – \$21,290,000, UHSA – \$6,910,000, and UHV – \$8,845,000).
 - Source of revenue for debt service – Designated Tuition and various other fees and revenues and balances that may be legally available for payment of debt obligations.
 - Average interest rate of bonds refunded - 5.106634%.
 - Net proceeds from refunding series - \$73,326,358.81 after receipt of bond premium of \$10,146,107.80 and payment of \$424,748.99 in underwriting fees, insurance, and other issuance costs.
 - Sufficient funds were deposited with an escrow agent to provide for full payment of all outstanding obligations related to the 2008 series bonds maturing subsequent to 02-15-2019, after they are called for early redemption on 02-15-2018.
 - The advance refunded 2008 series bonds maturing subsequent to 02-15-2019 are considered fully defeased and the obligation for those bonds has been removed from the reported liabilities of the System.
 - Refunding of the 2008 series bonds reduced the System's debt service payments over the life of the bond issues by approximately \$11,368,241.94.
 - Economic gain - \$9,431,071.76; the difference between the net present value of the old and new debt service payments.
 - Accounting loss (deferred outflow of resources) - \$3,725,515.23; the accounting loss (the difference between the reacquisition price and the net carrying value of the refunded bonds) resulted from the advance refunding.
- **Consolidated Revenue and Refunding Bonds, Series 2016-B**
 - To (a) defease certain outstanding commercial paper notes of the System and (b) finance the acquisition, purchase, construction, improvement, enlargement, and equipping of property, buildings, structures, activities, services, operations and other facilities, roads, or related infrastructure for or on behalf of the System, including individual campuses of the System.
 - In addition to the defeasement of the commercial paper note above, the proceeds were used to finance a portion of the Multidisciplinary Research and Engineering Building (UH); the Science, Technology, Engineering, and Mathematics Building (UHCL); and the Health and Biomedical Building 2 (UH).
 - Issued 2-16-2016.
 - \$184,350,000; all bonds authorized have been issued (UH – \$120,300,000 and UHCL – \$64,050,000).
 - Source of revenue for debt service – Designated tuition and various other fees, revenues and balances that may be legally available for payment of debt obligations. (Funding for fiscal year 2023 partially from Legislative Appropriations–Tuition Revenue Bonds.)

Pledged Future Revenues

GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, makes a basic distinction between sales of receivables and future revenues, on the one hand, and the pledging of receivables or future revenues to repay a borrowing (a collateralized borrowing), on the other. The following table provides the pledged future revenue information for the System's revenue bonds:

	Government Activities	Business-Type Activities	Component Units
Pledged revenue required for future principal and interest on existing revenue bonds	\$ NA	\$ 2,304,651,810.42	\$ NA
Term of commitment year ending 08/31	NA	2056	NA
Percentage of revenue pledged	NA	100%	NA
Current year pledged revenue	\$ NA	\$ 1,112,397,229.07	\$ NA
Current year principal and interest paid	\$ NA	\$ 151,306,814.12	\$ NA

Pledged revenue sources:

Governmental activities – None.

Business-type activities – Operating income from tuition and fees, and sales and service revenue from auxiliary and non-auxiliary activities including intercollegiate athletics, residential life, parking, rental of facilities, continuing education, royalties, publications, clinics, bookstores, and vending commissions.

Component Units – None.

NOTE 9: Defined Benefit Pension Plans and Defined Contribution Plan

The State has joint contributory retirement plans for substantially all its employees. The System participates in the plans administered by the Teachers Retirement System of Texas. Future pension costs are the liabilities of the Retirement System. The Retirement System does not account for each State agency separately. Annual financial reports prepared by the Retirement System include audited financial statements and actuarial assumptions and conclusions.

The state has also established an Optional Retirement Program for institutions of higher education. Participation in the Optional Retirement Program is available to certain eligible employees and is in lieu of participation in the Teacher Retirement System. Since contributions are invested in individual annuity contracts, neither the State nor the System have any additional or unfunded liability for this program.

The contributions made by plan members and employers for the fiscal year ended August 31, 2024 are:

	TRS Participants	ORP Participants	Total Contributions
Member Contributions	\$ 38,549,615.47	\$ 15,925,784.00	\$ 54,475,399.47

NOTE 10: Deferred Compensation (Administering Agencies Only)

Not Applicable.

NOTE 11: Postemployment Benefits Other Than Pensions

Not Applicable.

NOTE 12: Interfund Activity and Transactions

Not Applicable.

NOTE 13: Continuance Subject to Review

The System is not subject to the provisions of the Texas Sunset Act (Chapter 325, Texas Government Code Annotated). The Act provides for the regular assessment of the continuing need for state agencies to exist. Certain agencies, such as institutions of higher education and courts, are not subject to the Sunset Act.

NOTE 14: Adjustments to Beginning Net Position, Fund Balances or Fund Net Position

During fiscal year 2024, certain accounting changes or adjustments were made that required the restatement of fund balances or net position. The restatements are presented below:

Correction of an Error in Previously Issued Financial Statements:

A restatement of \$24,626.94 in Enterprise Funds, is due to corrections related to asset valuation in the prior period.

A restatement of (\$22,745.99) in Enterprise Funds, is due to the discovery of one GASB 87 lessee lease that was not recorded in FY24 at University of Houston – Clear Lake, one lessee lease extension at University of Houston that was not recorded in FY24 and one lessor lease extension at University of Houston that was not recorded in FY24. This resulted in a restatement to Plant Assets at the University of Houston and University of Houston – Clear Lake.

A restatement of \$115,621.41 in Enterprise Funds, is due to the discovery of one GASB 96 subscription obligation that was not recorded in FY24 and one subscription obligation extension that was not recorded in FY24. This resulted in a restatement to Plant Assets at the University of Houston.

A restatement of \$93,485.84 in Enterprise Funds, is due to the revaluation of the recording of one GASB 94 public-public partnerships (PPPs) lease in FY24. This resulted in a restatement to Auxiliary funds at the University of Houston.

Adjustments to and Restatements of Beginning Balance

During fiscal year 2024, changes to or within the financial reporting agency and error corrections resulted in adjustments to and restatements of beginning net position and fund net position, as follows:

Government Wide	8/31/2023 As Previously Reported	Error Correction	8/31/2023 As Restated
Business Type Activities	\$2,210,476,218.55	\$210,988.20	\$2,210,687,206.75

NOTE 15: Contingencies and Commitments**Unpaid Claims and Lawsuits**

As mentioned in Note 5, various lawsuits and claims involving the System were pending. While the ultimate liability, if any, remains uncertain, management does not expect any possible adverse ruling to have a material effect on the System accounts.

Federal Assistance

The System has received several federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to a request for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowances, if any, will be immaterial.

Arbitrage

Rebatable arbitrage is defined by Internal Revenue Code, Section 148, as earnings on investments purchased with the gross proceeds of a bond issue in excess of the amount that would have been earned if the investment were invested at a yield equal to the yield on the bond issue. The rebatable arbitrage must be paid to the federal government.

The System monitors its investments to restrict earnings to a yield less than the bond issue and, therefore, limit any arbitrage liability. The System estimates that rebatable arbitrage liability, if any, will be immaterial to its overall financial condition.

Construction Commitments

The System has several contractual agreements with various external housing management entities to construct, maintain, and manage off-campus student housing complexes. Under certain circumstances, the System may have contingent liabilities to these entities. Based on prior experience, previous years' liabilities have been immaterial, and management believes no such liabilities currently exist. Additional information is provided in Note 19.

Investment Funds

The System has entered into contractual commitments to fund private investments made by external investment managers. Investments in which a public market does not exist have an inherent uncertainty of valuation. Because of this uncertainty, the estimate of fair value for alternative investments may differ from the values that would have been used had a ready market existed. As displayed in Note 3, the fair value of Externally Managed Investments is: Domestic – \$282,604,911.22 and International – \$280,349,187.78 The total amount of unfunded commitment is: \$121,750,501.11, composed of Domestic – \$70,944,547.91 and International – \$50,805,953.20.

NOTE 16: Subsequent Events

At a regular meeting held on May 15, 2024, the Board of Regents was requested to approve additional revenue bonds consisting of Consolidated Revenue and Refunding Bonds, Series 2024-A and Consolidated Revenue and Refunding Bonds, Series 2024-B (Taxable), to be settled in September 2024. The bonds were issued in September 2024 with a total PAR of \$267,180,000 (52,570,000 of which was tax exempt). The Series 2024 bonds will be used for the acquisition, purchase, construction, improvement, enlargement and equipping of property, buildings, structures, activities, services operations and other facilities, roads or related infrastructure for or on behalf of the UH System; refund and defease certain outstanding notes of the UH System; pay capitalized interest; and pay the costs of issuing the bonds.

NOTE 17: Risk Management

The System is exposed to a variety of civil claims resulting from the performance of its duties. It is System policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

The System assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently, there is the purchase of some commercial insurance, and the System is not involved in any risk pools with other government entities.

The System's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred, but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience, and economic factors. There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years. Changes in the balances of the agency's claims liabilities during fiscal years 2023 and 2024 were:

Table 17.1 – Balance of Claims Activity

	Beginning Balance	Increase	Decrease	Ending Balance
2024	\$ 1,955,861.62	\$ 83,790.94	\$ 780,089.11	\$ 1,259,563.45
2023	\$ 1,212,750.93	\$ 1,551,590.46	\$ 808,479.77	\$ 1,955,861.62

Liabilities include an amount for estimated future workers' compensation and unemployment claims that have been incurred as of the fiscal year end, but that have not been reported. 2024 increases and decreases also include current year assessments and payments of legal settlements in the amount of \$60,482.66. Payments for worker's compensation claims of \$546,353.32 and for unemployment claims of \$173,253.13 make up the remainder of the decrease total of \$780,089.11.

NOTE 22: Donor Restricted Endowments

Expenditure of endowed funds is not permitted without the express consent of the donor. The majority of the System's endowments are held in perpetuity. In many cases, endowment earnings are expendable for student financial assistance or other purposes as specified by the donor. In other cases, endowment earnings are reinvested.

The Regents of the University of Houston System have established an endowment policy which attempts to balance the long-term objective of maintaining the purchasing power of the endowment with the goal of providing a reasonable, predictable, stable, and sustainable level of income to support current needs. Payout is derived from interest, dividends, and realized gains net of portfolio management fees. The historical rate of payout has been 4 to 5 percent, with any change to this range to be approved by the Board.

The net appreciation (cumulative and unexpended) on donor-restricted endowments, presented below in Table 22.1, is available for authorization and expenditure by the System:

Table 22.1 – Net Appreciation of Endowments

Donor-Restricted Endowments	Amount of Net Appreciation/(Depreciation)	Reported in Net Position
True Endowments	\$ 297,816,386.93	Restricted Expendable
Term Endowments	872,750.11	Restricted Expendable
Total	<u>\$ 298,689,137.04</u>	

(A fair market value increase of \$177,229,564.49 was recognized for endowments at or above historical cost, and a fair market value increase of \$5,610,568.86 was recognized for endowments below historical cost.)

Variances from prior year-end for expendable and nonexpendable balances are shown in Table 22.2:

Table 22.2 - Changes from Prior Year Balances:

Endowment Funds	Increase/(Decrease)	Reason for Change

NOTE 27: Public-Private and Public-Public Partnerships

The System recognizes a receivable for payments to be received from the operator under public-private and public-public partnerships (PPPs). The receivable for PPP installment payments is initially measured at the present value of PPP installment payments expected to be received over the term reduced by any provision for estimated uncollectible amounts. Present value of PPP installment payments are discounted based on a borrowing rate determined by the System.

Future period revenues from PPPs where the System is the transferor are recorded as deferred inflows and are amortized using the straight-line method over the PPP term.

Chartwells	\$39,154,768.53		\$37,840,663.99	\$1,369,500.97
Total	\$39,154,768.53		\$37,840,663.99	\$1,369,500.97

Variable payments are a result of the underlying PPP measured not in a fixed rate, but rather variable due to underlying payments derived from profit-sharing arrangements, usage of the underlying PPP asset, or changes in an index or rate. A total of \$1,369,500.97 was recognized as revenue from these variable payments for the year ended August 31, 2024.

The nature and extent of rights retained by the System as transferor under the PPP arrangements include, but are not limited to, maintaining residual interest of the utility of the assets used in P3 agreements and setting prices and hours of operations. Rights granted to operators in these agreements may include the ability to make improvements to the space with written permission from the System.

A total of \$34,917,534.58 was recognized as the noncurrent portion of the Receivable for PPP Installment Payments for the year ended August 31, 2024. Of the total receivable, \$4,237,233.95 was recognized as the current portion of the receivable for PPP installment payments for the year ended August 31, 2024.

Deferred Inflow of Resources corresponding to the Receivable for PPP Installment Payments and Receivable for Transfer of Underlying PPP Asset was \$37,840,663.99 for the year ended August 31, 2024.

NOTE 28: Deferred Outflows of Resources and Deferred Inflows of Resources

In fiscal year 2024, the System reported deferred outflows of resources and deferred inflows of resources in connection with the TRS pension plan and GASB 87 Leases.

As of August 31, 2024	Deferred Outflows of Resources	Deferred Inflows of Resources
Loss/Gain on Bond Refunding	\$ 0.00	\$ 0.00
Leases	0.00	7,354,457.24
Pensions	127,130,642.00	66,629,630.00
Other Post-Employment Benefits	22,637,618.00	212,591,831.00
Other Deferred Inflows	0.00	37,840,663.99
Total	\$ 149,768,260.00	\$ 324,416,582.23

Deferred outflows of resources represent a consumption of net position that applies to a future period and therefore, will not be recognized as an expense or expenditure until that time.

Deferred inflows of resources represent an acquisition of net position that applies to a future period and therefore will not be recognized as revenue until that time.
