3. STEM OPT Extensions - available for certain Science, Technology, Engineering, and Mathematics (STEM) students. STEM students must apply within 90 days prior to the ending date of current Post-Completion OPT.

ACADEMIC VERIFICATION

– College or Departmental Signature Required –

This section needs to be signed by the Dean, Dissertation/Thesis Advisor, OR the student's Academic Advisor. The student is applying for Optional Practical Training (OPT), which is available through the Department of Homeland Security (DHS). It allows an F-1 international student to work for up to one year in a field related to his/her major. In order to recommend the student for this post-completion practical training, we need to know the expected completion date. A student is allowed to apply 90 days before the completion of studies. It is helpful for the student to apply as early as allowed under law, since it may take up to three months to process the Employment Authorization Card from DHS. If the student does not complete the degree when expected, the Employment Authorization Card may be cancelled as long as the OPT start date has not begun. If the card is cancelled the student may reapply for OPT. If you have any questions, please call #35065 and ask to speak to an International Student Counselor. **NOTE:** Engineering majors have additional steps to follow. Please check with your department before attending a group OPT appointment.
