

A.D. BRUCE RELIGION CENTER

ADDITIONAL ONE TIME REQUEST FOR FY 2022

**Additional One Time FY22 SFAC Request Proposal
A.D. Bruce Religion Center**

1. Building Drapes – AD Bruce Religion Center

This request is for facility improvement funds and the associated administrative fee for FY22.
As part of the DSAES Strategic Mapping [Student Success] [Resources]

One of the best features of the AD Bruce Religion Center are the beautiful windows all around. One of the challenges of a building surrounded with windows is managing the sun. Currently many of the rooms within the building have drapes but they are 30+ years old. They are very dated and stained from the years of sun and make an already aging building feel that much older. New window drapes will also aid in softening all of the ministry suites throughout the building where students are regularly gathering for fellowship, spiritual guidance and faith learning.

With SFAC support, we would like to replace all of the current drapes with updated window coverings for all of the rooms throughout the building. We would also like to add drapes to the windows in our Atrium, which currently does not have any window coverings and with the direct sunlight entering that space, it is often very warm and often uncomfortable. We would not be looking to add any window coverings in the University Chapel, a large part of the charm of that space are all the large visible windows. Replacement of the window drapes also allows for the all of the spaces within the building to feel more welcoming. New drapes will not only add color but will also make each space feel inviting and foster an environment that is nurturing and wanting students to stay.

Building Drapes	\$47,678.61
10%Facilities Contingency	\$4,767.86
6% Admin	\$2,860.71
TOTAL	\$55,307.18
