

**Coog Radio One Time Request**

**FY24**

*Coog Radio has been evolving since last year. We've updated our Constitution for the first time since 2018, instituted a 4-Branch system for members to get hands-on experience (in marketing, web, engineering, and programming), completely redesigned our website and branding, and have revamped our inventory (music and equipment both!) processes to make them both more detailed and more efficient.*

*Our officers started this year's work on May 1 and have been changing Coog Radio for the better ever since. We're incredibly proud of the work we've done so far, and we look forward to discussing our requests with SFAC and how we anticipate they will improve Coog Radio even further. If you have any questions regarding our One-Time Requests, I'd be more than happy to answer them for you during our presentation.*

**E. FY24 One-Time Request – Equipment Manager Stipend Pay (12 mo.)**

Coog Radio received funding for FY23 to hire an Equipment Manager. Since this May, the Equipment Manager position has proved incredibly successful. As an additional officer on the Engineering Team, the Equipment Manager has relieved the workload of the Station Engineer, who was previously tasked as the sole manager of RadioDJ, the studio computer, the Jam Room, and the Broadcasting Room.

The Equipment Manager now oversees management of the Jam Room and training of Engineering Team members, allowing the Station Engineer to manage the Broadcasting Room and assist the Programming Director in training Radio Show Hosts. This allows our organization to function more smoothly, as more than one officer is trained in engineering and there are more than one officer is training the large number of Radio Show Hosts (27 this semester).

We are requesting another One-Time funding to continue the Equipment Manager position in Coog Radio, as it has proven integral to the functioning of our organization. We are requesting that they receive the same stipend pay as in FY23, with a stipend of \$566.50 per month.
