The Children's Learning Centers (CLC) is requesting **\$18,561.00** in FY2025 to fund a 12-month Graduate Assistant position to assist in a supportive role to teachers and children in the classrooms. CLC will recruit from the College of Education, Communication and Sciences Disorders, and Psychology.

Having additional resources in the areas of Special education, Speech delays, and Play therapy in the classrooms would be very beneficial for children who need more one-on-one support. This aligns with the recommendations provided during CLC's 2023 External review:

Working with the Special Education Department to provide support to teachers with children identified as having challenging behaviors or special needs. Through observations the students could create action plans and work directly with teachers to implement their strategies.
