

To ensure that we can sustain the high-level support for our Military-Connected Student Population, Veteran Services is seeking SFAC's ongoing support and a one-time allocation to cover our programming expenses. This request is in response to the growing demand for programming from our military-connected student community. With the ongoing reduction of troops involved in overseas war efforts and the University of Houston's increasing popularity as a top choice for military personnel, veterans, and their dependents, we anticipate a continuous rise in the numbers we serve. We are enthusiastic and prepared to meet the challenge of guiding our Military-Connected population toward success.
