

TEXAS INTENSIVE Standard Workshop

The Texas Intensive (TXi) is an annual regional workshop, sanctioned by the Society of American Fight Directors (SAFD), focused on the art of stage and screen violence.

Our workshop is specifically designed to provide students of all levels with an immersive, “intensive” experience. We are dedicated to professional skill training and attribute acquisition, and pride ourselves on providing practical combat education to create better, more dynamic performers.

Who we are:

The Society of American Fight Directors (SAFD) is a nationwide organization dedicated to the pursuit of excellence in the art of performing and teaching stage combat in the United States. More information is available on our website: www.safd.org.

What we offer:

TXi classes are geared towards the performance of stage and screen combat, but also offer a wealth of information for directors and aspiring fight choreographers to consider. All skill levels are encouraged to attend, with the understanding that we offer instruction in a rigorous physical discipline.
