

TEXAS INTENSIVE Starter Track

This specialized workshop, designed by Fight Director Jack Young, is ideal for those who are new to stage combat, and looking to acquire the foundational skills necessary to flourish in this art.

The Starter Track Workshop was specifically designed for entry-level students, as it provides immersive, hands-on experience in the safety techniques, weapon style characteristics, and performance aspects of stage and screen violence.

The goal of the TXi Coordinators in creating this additional workshop curriculum is to nurture safe practices in our high schools and community theatres; we therefore offer the Starter Track Workshop at a very reasonable price, to make it more accessible to young practitioners and non-professional theatres throughout our region.

Minors may only participate with the permission of a parent or guardian.
