

Mission Statement

The mission of the Center for Medicine after the Holocaust is to challenge doctors, nurses, and bioscientists to personally confront the medical ethics of the Holocaust and to apply that knowledge to contemporary practice and research.

DECEMBER CONFERENCE: HOUSTON, TEXAS

Human Subjects Research After the Holocaust

Healthcare personnel, like all human beings, have the capacity to believe they are doing good while they are actually doing harm. By studying medicine during and after the Holocaust, we hope to empower physicians, nurses, and other healthcare professionals with the knowledge and awareness needed to ensure they are acting in the best interests of patients, as they always intend. We educate and inspire through champions: partners at universities around the world who teach Holocaust medicine and related topics to current and future healthcare professionals.

Tuesday, December 4, 2012 at The Methodist Hospital

1 - 5:30 pm Meeting of CMATH Champions followed by dinner.

Please attend the Center for Medicine after the Holocaust (CMATH) annual meeting for Champions to learn about teaching and writing about medicine during and after the Holocaust. We will be networking with one another and discussing topics including human subjects research, the recent apology by the German Medical Association, and many others. Please visit our web site at medicineaftertheholocaust.org to register.

Wednesday, December 5, 2012

at The Methodist Hospital Research Institute

8 am - 5 pm Conference on Human Subjects Research after the Holocaust

Co-chaired by Dr. Mauro Ferrari, President and CEO of The Methodist Hospital Research Institute (TMHRI) and Dr. Sheldon Rubinfeld, President of CMATH.

TMHRI and CMATH will be hosting the first conference on Human Subjects Research after the Holocaust. Noted scholars in their fields will discuss German and American experimentation on human subjects; the Nuremberg Doctors' Trial; eugenics and genetics; nanomedicine and its bioethical implications; nurses and human subjects research; the 80th anniversary of the Tuskegee Institute studies; and more. A member of The White Rose medical student resistance organization and a survivor of the notorious Auschwitz twin experiments will share their experiences with us. Please visit our web site at medicineaftertheholocaust.org to register.

Journey to Germany and Poland

April 6-13, 2013

Join other physicians, nurses, and bioscientists on this transformative, educational journey to European sites relevant to medicine and the Holocaust. Each group is accompanied by internationally recognized scholars, who provide lectures and facilitate discussions about the sites. Professional tour guides help participants navigate each site, explaining the significance and history there. For more information, please visit our web site at medicineaftertheholocaust.org.

CMATH gratefully acknowledges the support of the Conference on Jewish Material Claims Against Germany, Inc.
