

Demystifying Dementia Improving Diagnostic Accuracy

A course for primary care clinicians/professional

The Houston Geriatric Education Center is offering one half-day course on demystifying dementias.

The goal of this course is to increase knowledge of practices with an emphasis on improving diagnostic accuracy of dementias.

The recommended audience is physicians, physician assistants, nurses, nurse practitioners, pharmacists, therapists, and dentists. All health care professionals are welcome.

There is **no cost** to attend this course, and **free continuing education** credit will be provided (medicine and nursing) and other CEs pending approval.

This Program is funded in part by a grant from the Health Resources and Services Administration.
