October 17 • 1 - 4pm | [HIV/AIDS \\$30](#)

Plan Ahead

November 21 • 1 - 4pm | [STIs, Hepatitis & Tuberculosis \\$30](#)
December | No Training Scheduled

Course Descriptions

HIV/AIDS (3 CEU Credits)

A complete overview of human immunodeficiency virus (HIV) and acquired immune deficiency syndrome (AIDS); including the diseases' impact on the human body and immune system, routes of transmission, prevention, testing, current and developing treatments, and epidemiological trends.

STIs, Hepatitis & Tuberculosis (3 CEU Credits)

Information about bacterial, viral, and protozoan sexually transmitted infections (STI); including common symptoms, safer sex practices, treatment options and general facts. Information about acute and chronic chemical and viral hepatitis; including risk, prevention, symptoms, treatment methods, and vaccination.

There is a \$10 surcharge if not prepaid.
