**INSTRUCTIONS
FOR COMPLETING FOUNDATION SEMESTER APPLICATION FOR FIELD
PRACTICUM**

1. Complete all information in detail. Please print carefully so your telephone numbers and email address can be clearly read.
- 2/3. The first field course is called Field Practicum I: Foundation. That is the course for which you are applying. It will begin in October of the Fall Semester Foundation.
4. This should be consistent with the information in your application to the GCSW.
5. If Fall 2011 is the beginning of your MSW education at the GCSW, please enter that date.
- 6/7. Please complete each question. Do not leave blank. If you are not clear as to what these tracks and/or certificates are, please review the descriptions on the GCSW web site. (sw.uh.edu)
8. Please understand that just because you check a certain interest area, does not mean that you will be placed there. There is a difference between the learning objectives for your first field placement and your second. For example, “therapy” is a skill learned in the second field placement and is not available in first year agencies. First year field courses focus on community responses to broad social problems. That is why it is important to know which social problem areas interest you.

When completing this section, it would be wise to consider thinking about both your first and second field placement. Your second field placement should be reserved for that practice setting in which you hope to begin post MSW employment. Therefore your first field placement should be something different. It should provide you with an experience that you have not yet had to give breadth to your post MSW resume.

Understand that field practicum is an educational experience. You are expected to learn new skills. You are not applying for a job. Therefore you will not want to request a placement working with adolescents if you have been working with adolescents for the past five years.

9. This section will allow you to inform us of any limitations you may have that could affect where you are placed. Geography is a critical one. We do not want to place you in Galveston when you are living in Sugar Land. Please let us know if there are any constraints to the geographical location of your placement. Keep in mind that there are few social services and therefore few field placements in suburban areas. Affiliated

agencies must meet certain requirements to become field placement sites with our MSW program. Do not make any assumptions about the field placement availability of agencies in your area of residence. They may or may not qualify to take our students.

10. Geographical area is critical. Please be clear as to your answer.
11. This is an important item. Please contact the Field Office if you have any questions or concerns.

Signatures: Your signature is the only one needed on this form at this time.

Brief Biographical Statement: The Brief Biographical Statement is found on the attached page. Since this page and its back will be sent to potential field instructors you may want to be sure that it is especially legible. This information may be the field instructor's first impression of you. You will need to complete this information in full to be considered for field placement.

1. Please print your name legibly and use the same name you used when applying to the program.
- 5/6. If you have multiple years of employment, list the most relevant experience to social work. If you do not have multiple years of experience, list all experience available.
7. **This question is absolutely critical.** Please be specific. Also be aware that field placement hours are not available in evening and weekend times. Therefore you will need to make arrangements to be available for at least 16 hours per week Mondays through Fridays 8:00 AM – 5:00 PM.
8. Skills to be developed in this first field placement will reflect the learning objectives for the foundation semester.

Critical Field Education Policies: These are important policies of which you must be aware before beginning field placement. Please read carefully and sign each one. All students must be covered under professional liability insurance before beginning field placement. Professional liability insurance forms will be online and will need to be submitted before the published deadline in early September. You may complete this field application without actually having submitted the liability insurance form as long as you are aware that it will need to be done.
