Program Chair:  
Lovell A. Jones, Ph.D.

### *9th Annual Disparities in Health in the Global Context Summer Workshop*

The goal of the workshop is to provide a comprehensive approach to the issue of health disparities. In addition, to also provide the attendee with a broad base of knowledge related to a bio-psychosocial approach in addressing health disparities.

#### **Educational Objectives:**

- Acquire introductory knowledge and experience related to various determinants of populations' health
- Examine and gain an understanding of the latest findings of specific research that demonstrate wide disparities in the treatment and control of chronic disease among certain populations
- Demonstrate awareness of factors that currently contribute to the prevention and control of chronic disease and factors that contribute to the wide disparities in health among certain populations
- Identify the role of various health professionals in eliminating chronic diseases as they impact and contribute to health disparities
- Introduce community and state-level resources that are ready for mobilization for funding to reduce chronic disease and health disparities.

#### **Target Audience:**

This workshop should be of interest to physicians, nurses, and other healthcare professionals, social workers, students, fellows and health educators, community members, and civic and governmental leaders.

#### **Academic Credit Offered**

Academic credit will be provided to HDEART member students (TSU, UH, Rice, etc.) registering for a Special Topic Elective (pending approval from their departmental faculty advisor). Upon completion of the six-day workshop and individual institutional requirements, 3:00 academic units will be awarded.
