Employer/ Agency	Elevated Care Services LLC
Job Description	<p>(Typically engage in duties such as assessment, counseling, and treatment planning for individuals with mental health, emotional, or substance abuse issues. They also provide support, education, and referrals to help clients navigate the healthcare system and access community resources)</p> <ul style="list-style-type: none"> • Therapy: Individual, group, and family therapy. • Assessment and Diagnosis: Evaluating mental health conditions and developing treatment plans. • Medication Management: Some professionals, like psychiatrists, can prescribe medications. • Substance Abuse Treatment: Addressing addiction and substance use disorders. (Only if comfortable in this area) • Crisis Intervention: Providing immediate support and assistance during mental health crises. <p>Assessment and Diagnosis:</p> <ul style="list-style-type: none"> • <u>Conduct thorough assessments:</u> Evaluate clients' mental, emotional, and behavioral status through interviews, observations, and potentially psychological testing. • <u>Develop treatment plans:</u> Create personalized treatment plans based on the assessment findings, considering individual needs and goals. • <u>Preliminary diagnosis (if credentialed):</u> Some licensed professionals may be credentialed to make preliminary diagnoses. <p>Counseling and Therapy:</p> <ul style="list-style-type: none"> • Provide individual and group counseling: Utilize various therapeutic techniques, including trauma-informed counseling and solution-focused approaches. • Address diverse issues: Help clients cope with a range of issues like depression, anxiety, relationship problems, and life transitions. • Teach life skills and strategies: Equip clients with coping mechanisms and strategies for managing their challenges. <p>Treatment and Support:</p> <ul style="list-style-type: none"> • Implement and evaluate treatment plans: Monitor clients' progress and adjust treatment plans as needed. • Facilitate referrals: Connect clients with other resources, such as support groups, job placement services, and other community services.

	<ul style="list-style-type: none"> • Advocate for clients: Support clients in accessing needed services and navigating the healthcare system. • Monitor and evaluate progress: Track client progress and make adjustments to treatment plans as needed. • Collaborate with other professionals: Work with other healthcare providers, such as physicians and nurses, to ensure a comprehensive approach to care. <p>Documentation and Record-Keeping:</p> <ul style="list-style-type: none"> • Maintain accurate records: Document client progress, assessments, treatment plans, and referrals in the electronic medical record (EMR). • Monitor and track client progress: Use EMR systems to track client appointments and progress. <p>Other Responsibilities:</p> <ul style="list-style-type: none"> • Crisis intervention: Provide immediate support and assistance in crisis situations. • Family education: Educate family members about their loved one's condition and provide strategies for supporting them. • Prevention and education: Offer educational programs to help prevent substance abuse and promote mental health. <p>It's important to note that specific duties can vary based on the specific role and setting of the behavioral health professional. For example, a therapist in a hospital setting may have different responsibilities than a counselor in a private practice.</p>
Qualifications	<p>Master's or Doctoral degree in Counseling, Psychology, Social Work, or related field. Appropriate state licensure (e.g., Licensed Professional Counselor, Licensed Clinical Social Worker, Licensed Psychologist). Experience in providing therapy and counseling services, preferably in a clinical setting. Strong communication and interpersonal skills. Compassion, empathy, and a nonjudgmental approach. Knowledge of various therapeutic modalities and evidence-based practices. Agreement: Credentialed with Medicare and/or Medicaid</p>
