

City of Houston—Public Works & Engineering
Code Enforcement Green Building Resource Center

Presents an Education Seminar in partnership with the Texas Gulf Coast Chapter of the US Green Building Council

New & Improved GBRC, USGBC, & Solarize

Socialize at the GBRC and find out about Solarize! Come by for some networking, and check out our reorganized displays of green building strategies. We will have light bites and beverages, and short presentations about the **new USGBC Texas Chapter**, and the emerging **Solarize Houston**— a grass roots, volunteer, non-profit group organizing individuals in Houston to make a group purchase of solar panels and installations in the first half of 2016. Solarize Houston's mission is to increase awareness and accelerate the use of solar energy for electricity generation in Houston. Solarize Houston is modeled upon similar efforts, including in [Plano](#) and elsewhere. Find out about the City's accelerated permitting for Solar-only projects....

Are you up for the Challenge? We have a Student Activity Package here with questions for high school students centered on our 'Top Ten' Self-Guided Tour displays. Take a copy and work as a team to see if you can compete. Leave your contact information on it if you want me to get back to you with the answers and how you scored....

Speakers.....

Steve Krebs, Co-Founder,
Solarize Houston
Steve Stelzer, AIA, LEED AP,
GBRC Program Director

Held in the Green Building Resource Center located in the Houston Permitting Center with its LEED Gold Certification since 2012. The GBRC is Houston's best location for seeing displays of green building materials and strategies.
