BIOL 1361/1161 4 NS	BIOL 1362/1162 4 major																																																																												
Introduction to Biological Science P: MATH 1310 or equiv	Introduction to Biological Science P: MATH 1310 or equiv																																																																												
MATH 1330 3 Math	CHEM 1331/1111 4 NS																																																																												
Precalculus P: MATH 1310 or satisfactory score on placement exam	Fundamentals of Chemistry & Lab P: MATH 1330 or equiv, & chemistry placement exam or CHEM 1301																																																																												
ENGL 1303 3 Comm	MATH 1431 4 Math/reas																																																																												
First Year Writing I P: score of 240 on THEA writing test or equivalent	Calculus I P: MATH 1330 or satisfactory score on placement exam																																																																												
HIST 1377 3 Hist	ENGL 1304 3 Comm																																																																												
The US to 1877 P: None	First Year Writing II P: ENGL 1303 or equivalent																																																																												
PHIL 1305 3 LP&C																																																																													
Introduction to Ethics (Recommended for core L, P & C) P: ENGL 1303 or equivalent																																																																													
CHEM 1332/1112 4 major	CHEM 3331/3221 5 major																																																																												
Fundamentals of Chemistry & Lab P: MATH 1330 or equiv, & CHEM 1331	Fundamentals of Organic Chemistry & Lab P: CHEM 1332																																																																												
HIST 1378 3 Hist	BIOL 3332/3132 4 major																																																																												
The US since 1877 P: None	Elementary Microbiology & lab P: BIOL 1361/1161, 1362/1162 & CHEM 1331, 1332																																																																												
PHYS 1301/1101 4	MATH 2311 3 math/reas																																																																												
Introductory General Physics I & Lab P: MATH 1330 or equiv	Intro to Prob & Statistics or PSYC 3301 or TMTH 3360 P: Satisfactory score on placement exam																																																																												
POLS 1336 3	POLS 1337 3																																																																												
U.S. & Texas Constitutions & Politics P: None	U.S. Government: Congress, Presidents & Courts P: None																																																																												
3	3																																																																												
Creative Arts Choose from core approved list	Social & Behav Sciences Choose from core approved list																																																																												
BCHS 3304/3201 5 major	BTEC 3302 3 major																																																																												
General Biochemistry & Lab P: CHEM 3221 & 3331	Molecular Genetics & Biotechnology P: BIOL 1361/1161, 1362/1162, CHEM 1332 & BTEC 1322																																																																												
BTEC 1322 3 major	BTEC 3317 3 major																																																																												
Introduction to Biotechnology P: None	Biotechnology Regulatory Environment P: Min of C- in BTEC 1322																																																																												
ELET 2300 3 Math/reas	CIS 2334 3																																																																												
Introduction to C++ Programming P: MATH 1330	Information Systems Applications P: Min of C in ITEC 1301 or ELET 2300 or equiv																																																																												
3	BTEC 3301 3 major																																																																												
Free Elective	Principles of Genomics/ Proteomics & Bioinformatics P: BTEC 1322 & MATH 2311																																																																												
	Free Elective																																																																												
BTEC 3321 3 major	TELS 3340 3																																																																												
Current Good Manuf Practices P: Min of C- in BTEC 3317	Organizational Leadership & Supervision or HDCS 3300 P: ENGL 1304																																																																												
BTEC 3100 1 major	BTEC 4350 3 major																																																																												
Biotechnology Research Methods & Applications P: BIOL 3332/3122	Biotechnology Capstone P: BTEC 3321, 3100, 3301 & SR & Enrolled or taken BTEC 4300 or BTEC 4301																																																																												
TELS 3363 3 WD																																																																													
Technical Communication P: ENGL 1304 with C or better																																																																													
16	15	17	15	15	15	15-16	12																																																																						

Total credit hours required =

120-121

Approved Electives: BCBS 4306, 4324, 4325
BIOL 3306, 4310, 4323, 4365, 4366, 4367, 4374
BTEC 3399, 4399
TELS 4342

Core coursework
 College departmental requirements
 major requirements
 free elective

****Students will be expected to place out of MATH 1310 by either math placement exam, CLEP, or have taken MATH 1310**
