University of Houston STEM Career Fair Layout

CAREER FAIR QUICK TIPS:
Do a loop the first time you enter to get a feel for the space and to scope out employer booths.

Be prepared to introduce yourself to the recruiter in 20 seconds or less (and be comfortable shaking hands).

Have copies of your resume ready and be prepared to speak about anything listed.

Never ask “what does your company do” - instead try “could you tell me about available opportunities with [name of company]?"

Look for alumni red tags—thank these Coogs for coming back to campus!

Be positive, friendly and smile!
