INTEROFFICE MEMORANDUM

To: Undergraduate Council

RECEIVED OCT 04 2006  
↙

From: Dr. Betty Barr, Associate Professor & Associate Chair  
Department of Electrical & Computer Engineering

Subject: On-line Catalog Updates

Date: October 3, 2006

Since it is apparently not possible for the on-line catalog to be updated/corrected in a timely manner, I request that the Undergraduate Council recommend to the Provost that the misleading heading "Fall xxxx Update" not appear on those sections which in fact have not been updated.

For example, as of the date of this memo (Oct 3, 2006), and in spite of the heading "Fall 2006 Update" which appears over each of the Engineering College's Degree Plans, the degree plans are not in fact the approved 2006 plans, but rather almost the 2005 plans. I use the modifier "almost" because in the case of the Civil Engineering Degree Plan, the on-line catalog shows in the spring semester of the sophomore year the non-existent course : ENGL 2304 U.S. and Texas Constitutions and Politics. This is in spite of numerous emails requesting correction, dating back to August 2005 when it was first discovered, sent from the Civil Engineering Department, the Engineering Dean's Office, and myself as the Engineering Representative to Council.
