

COLLEGE OF NATURAL SCIENCES AND MATHEMATICS  
OFFICE OF THE DEAN

RECEIVED FEB 23 2007

MEMORANDUM

Replaces  
UC 9058 06F

TO: Marsha Daly, Academic Program Management  
FROM: Valerie Gudell, College of Natural Sciences and Mathematics  
RE: Computer Science-Business Option Proposal  
DATE: February 23, 2007

APPROVED APR 18 2007

I have enclosed an updated proposal and the original document for reference (UC9058 06F) from our Computer Science Department for consideration at the next Undergraduate Council meeting. These documents and their changes have been approved by the NSM Curriculum Committee.

There are two sets of changes that the Department of Computer Science would like to make to the Computer Science-Business Option degree:

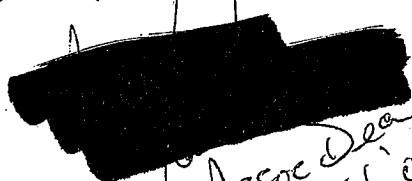

- 1. Change the Computer Science Business Option NSM Capstone Electives section from 9 hours to 6 hours.
- 2. Update the list of those courses to the following:  
DISC 3380, and either DISC 4374, DISC 4379 or DISC 4478.

(The previous list of course options consisted of INDE 4333; DISC 3371, 4368, 4370, 4371, 4372, 4377, 4378 and 4379.)

The reasons they decided to make these changes are:

- 1. The Business Option averaged 126 hours, which is four more hours than the 122 NSM requires. They only have 18 students enrolled, and believe that this change will make the Business Option equal to the Science Option as far as the number of hours required.
- 2. They met with representatives from the CT Bauer College of Business and updated the list of business courses to reflect the current trends in the industry. The list currently being used was at least four years old.

Please feel free to contact me with any questions that you may have (3-2614, [vgudell@uh.edu](mailto:vgudell@uh.edu)).

  
Assoc Dea  
23 Feb 07

On February 14, 2007 The Computer Science Faculty has approved two additional changes to the Business Option that have minimal impact.

We kindly request the Undergraduate Council to review and approve these additional changes/additions to replace the UC 9058 06F.

The Computer Science Faculty and Curriculum Committee of NSM have reviewed and approved (a) change to existing "Science Option" and "Business Option," and (b) introduced the new "Software Design Option." We request the Undergraduate Council to review and approve these changes/additions.

### ***Computer Science Major***

Students who choose to major in computer science must meet the following requirements in addition to the special requirements for the Bachelor of Science degree:

#### **Science Option**

<b>Requirements</b>	<b>Hours</b>
<hr/>	
<b>Mathematics</b>	
MATH 1431, 1432, 2431, 2433, 3336, 3338, and 3339	25
Three semester hours of approved 4000-level MATH (Designed to complete a minor in mathematics meeting the NSM Capstone requirement. <b>Note:</b> students must file for a minor and meet all university requirements for a minor.)	3
<hr/>	
<b>Physics</b>	
PHYS 1321, 1322	6
<hr/>	
<b>Computer Science</b>	
COSC 1410, 1320, 2320, 2410, 3320, 3430,	35

3340, 3380, 4211, 4330, and 4351  
 Nine approved advanced semester hours of computer science electives 9

---

**Business Option**

---

Requirements	Hours
--------------	-------

---

**Mathematics**

<u>MATH 1431, 1432, 2431, 3336, 3338, and 3339</u>	21
--	----

---

**Accounting**

<u>ACCT 2331 and 2332</u>	6
---------------------------	---

---

**Electives**

Six approved advanced hours from <u>DISC 3380 AND ONE OF 4374, or 4379, or 4478.</u> (Satisfies NSM Capstone requirement)	6
--	---

---

**Computer Science**

<u>COSC 1410, 1320, 2320, 2410, 3320, 3430, 3340, 3380, 4211, 4330, and 4351</u>	35
--	----

Nine approved advanced semester hours of computer science electives	9
---	---

**Software Design Option**

---

Requirements	Hours
--------------	-------

---

**Mathematics**

<u>MATH 1431, 1432, 2431, 3336, 3338, and</u>	21
---	----

3339

**Computer Science**

COSC 1410, 1320, 2320, 2410, 3320, 3351, 3430, 3340, 3380, 4211, 4330, 4351, and 4352 41

Nine approved advanced semester hours of computer science electives with at least six hours of regular 3000 or 4000 level CS electives. 9

***Suggested Program -  
Bachelor of Science in Computer Science (Systems, Science Option)***

***First Year***

<b>Fall Semester</b>	<b>Hours</b>
<u>ENGL 1303</u> . Freshman Composition I <sup>1</sup>	3
<u>HIST 1377</u> . The United States to 1877 or equivalent	3
<u>POLS 1336</u> . U.S. and Texas Constitutions and Politics or equivalent	3
<u>MATH 1431</u> . Calculus I	4
<u>COSC 1410</u> . Introduction to Computer Science I	4
<b>Total</b>	<b>17</b>

<b>Spring Semester</b>	<b>Hours</b>
<u>ENGL 1304</u> . Freshman Composition II <sup>1</sup>	3
<u>HIST 1378</u> . The United States Since 1877 or	3

equivalent	
<u>POLS 1337</u> . U.S. Government: Congress, President and Courts or equivalent	3
<u>MATH 1432</u> . Calculus II	4
<u>COSC 1320</u> . Introduction to Computer Science II	3
<b>Total</b>	<b>16</b>

---

***Second Year***

---

<b>Fall Semester</b>	<b>Hours</b>
<u>COSC 2320</u> . Data Structures	3
<u>COSC 2410</u> . Computer Organization and Programming	4
<u>MATH 2433</u> . Calculus III	3
<u>PHYS 1321</u> . University Physics <sup>1,6</sup>	4
Social Sciences Core	3
<b>Total</b>	<b>17</b>

---

<b>Spring Semester</b>	<b>Hours</b>
<u>COSC 3320</u> . Algorithms and Data Structures	3
<u>MATH 2431</u> . Linear Algebra	4
<u>PHYS 1322</u> . University Physics II <sup>1,6</sup>	3
Social Sciences Writing Intensive Core Course	3
<b>Total</b>	<b>13</b>

---

***Third Year***

---

<b>Fall Semester</b>	<b>Hours</b>
----------------------	--------------

---

<u>COSC 3430</u> . Computer Architecture	3
<u>MATH 3336</u> . Discrete Mathematics	3
<u>MATH 3338</u> . Probability and Statistics	3
Humanities Core Course	3
Natural Sciences Approved Course	3
Natural Science Laboratory <sup>6</sup>	1
<b>Total</b>	<b>16</b>

---

<b>Spring Semester</b>	<b>Hours</b>
<u>COSC 3340</u> . Introduction to Automata and Computability	3
<u>COSC 3380</u> . Introduction to File and Database Systems	3
<u>COSC 4351</u> . Fundamentals of Software Engineering	3
<u>MATH 3339</u> . Probability and Statistics	3
Natural Science Approved Course	3
Natural Science Laboratory <sup>6</sup>	1
<b>Total</b>	<b>16</b>

---

### ***Fourth Year***

<b>Fall Semester</b>	<b>Hours</b>
<u>COSC 4330</u> . Fundamentals of Operating Systems	3
Computer Science Approved Electives (3000- or 4000-level)	6
Mathematics Approved Elective (4000-level)	3
NSM Capstone, Minor, or Elective Course	3
<b>Total</b>	<b>15</b>

---

Spring Semester	Hours
<u>COSC 4211</u> . Computer Scientists and the Society	2
Computer Science Approved Electives (3000- or 4000-level)	3
NSM Capstone, Minor, or Elective Course	3
Visual/Performing Arts Core Course	3
<b>Total</b>	<b>11</b>

All students are responsible for the completion of 36 advanced semester hours required for a University of Houston degree.

### ***Suggested Program - Bachelor of Science in Computer Science (Business Option)***

All students are responsible for the completion of 36 advanced semester hours required for a University of Houston degree.

---

COSC 4211: Computer Scientists & Society Cr. 2. (2-0).

Pre-requisite: COSC 4330 and successful completion of the university core curriculum. Introduction and discussion of issues of professional responsibility and ethics related to the use of computer technology in complex modern working environments. Emphasis on specific cases, on group discussion, and on oral presentations and written reports by students. Emphasis and evaluation on Technical Writing is included. Major Field Test is a required component of the course.

COSC3351: Software Design Cr. 3. (3-0).

Prerequisite: COSC3320. Object-oriented paradigm, classes, object relationship, software architecture, use-case analysis, object modeling technique, design metrics, software development patterns, practices, and principles. A group project may be required.

COSC4352: Software Development Practices Cr. 3. (3-0).

Prerequisite: COSC 3351 and COSC 4351. Pragmatics of software development, hands-on iterative, incremental, and agile software development team project with emphasis on

use of state of the art tools, techniques, principle and better practices. May include invited lectures from outside speakers.

COSC3319: Web Development Cr. 3. (3-0).

Prerequisite: COSC3380. Introduction to DHTML, CSS, CGI, JavaScript, Server side programming paradigm, XML and transformation, Web Services, Service Oriented Architecture.

COSC4353: Advances in Software Development Cr. 3. (3-0).

Prerequisite: COSC 2320. COSC 3380 completed or concurrently enrolled. Selected special topics related to current trend in Software Development area. This will involve introducing students to new technology in the broad area of software development. A group project may be required.

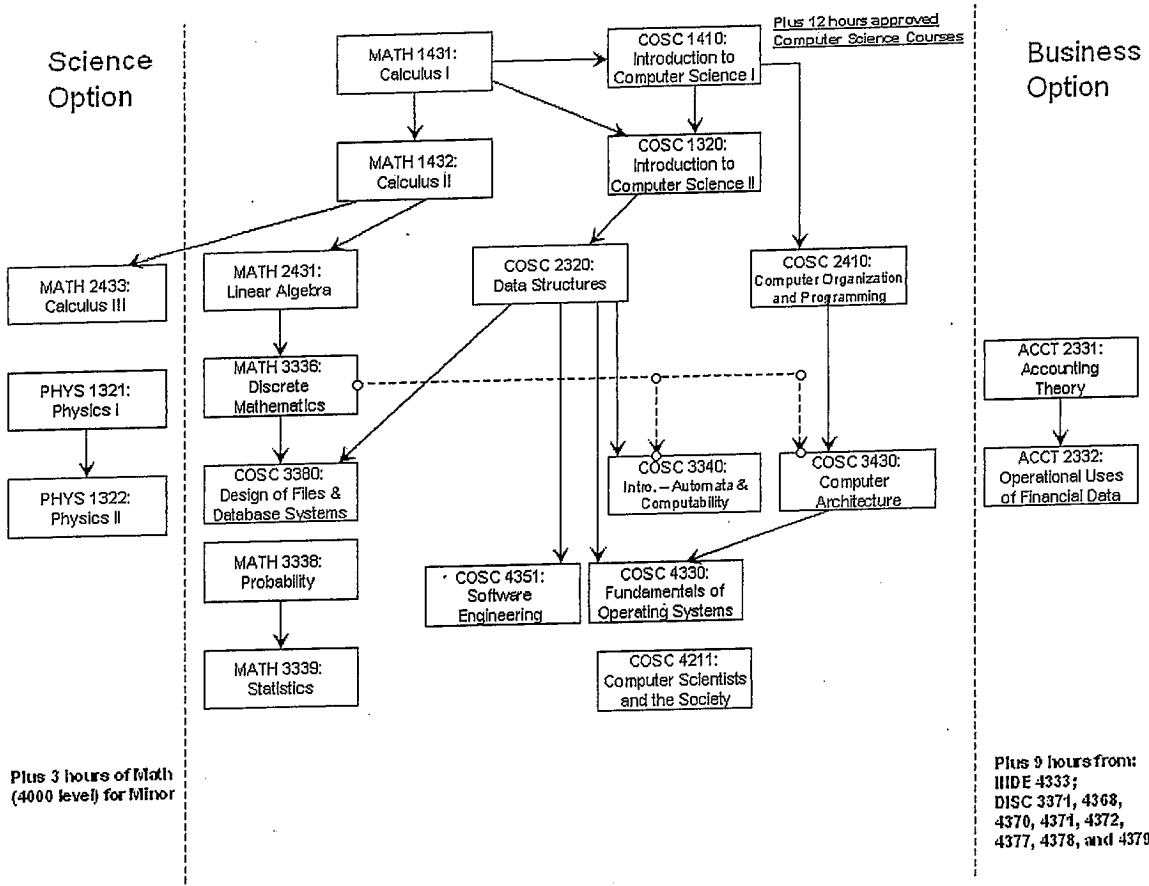

COSC3320: Algorithms and Data Structures Cr. 3. (3-0).

Prerequisite: COSC 2320. Data structures and algorithms for manipulating them. Algorithm analysis and design, heuristics; advanced tree structures; advanced hashing techniques; sorting and searching; graphs, and sets. introduction to NP-Completeness, Time and space complexities.

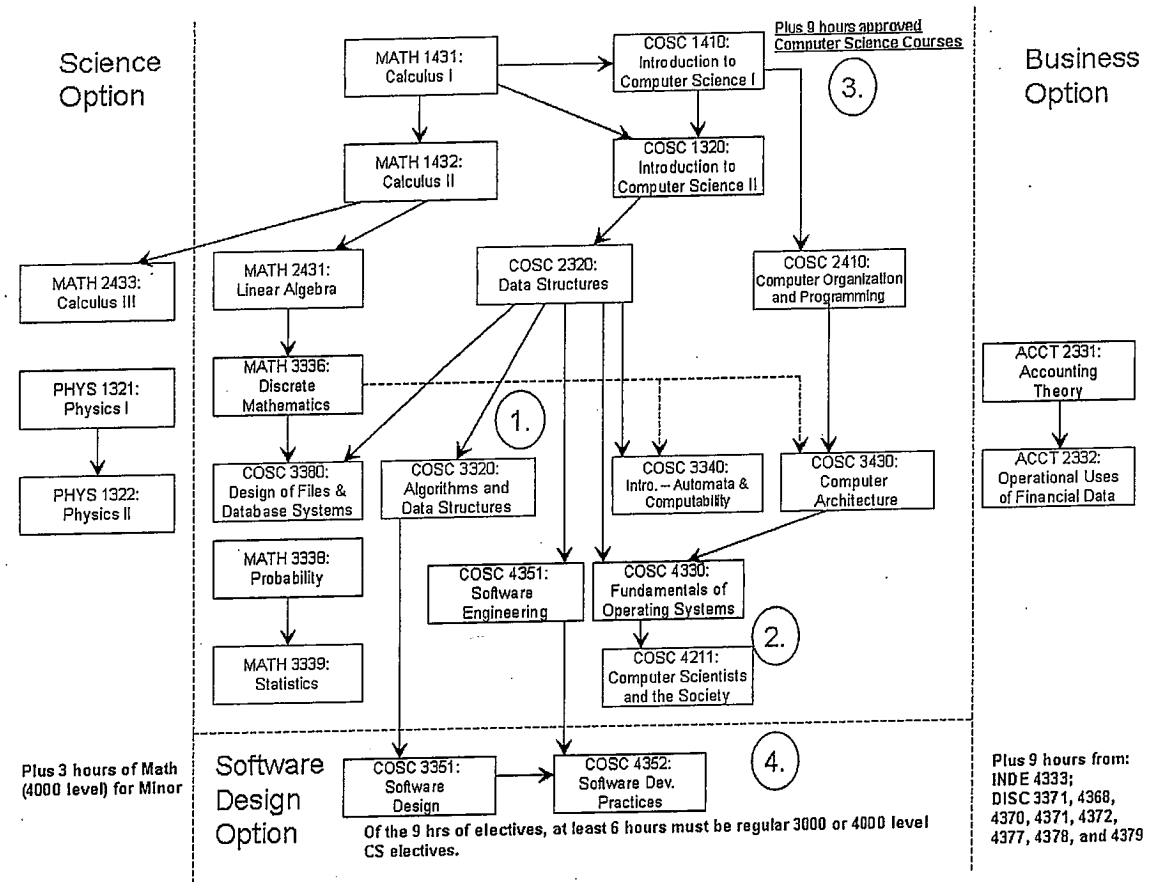

---

**Other details that may be useful for review:**

**Current curriculum**

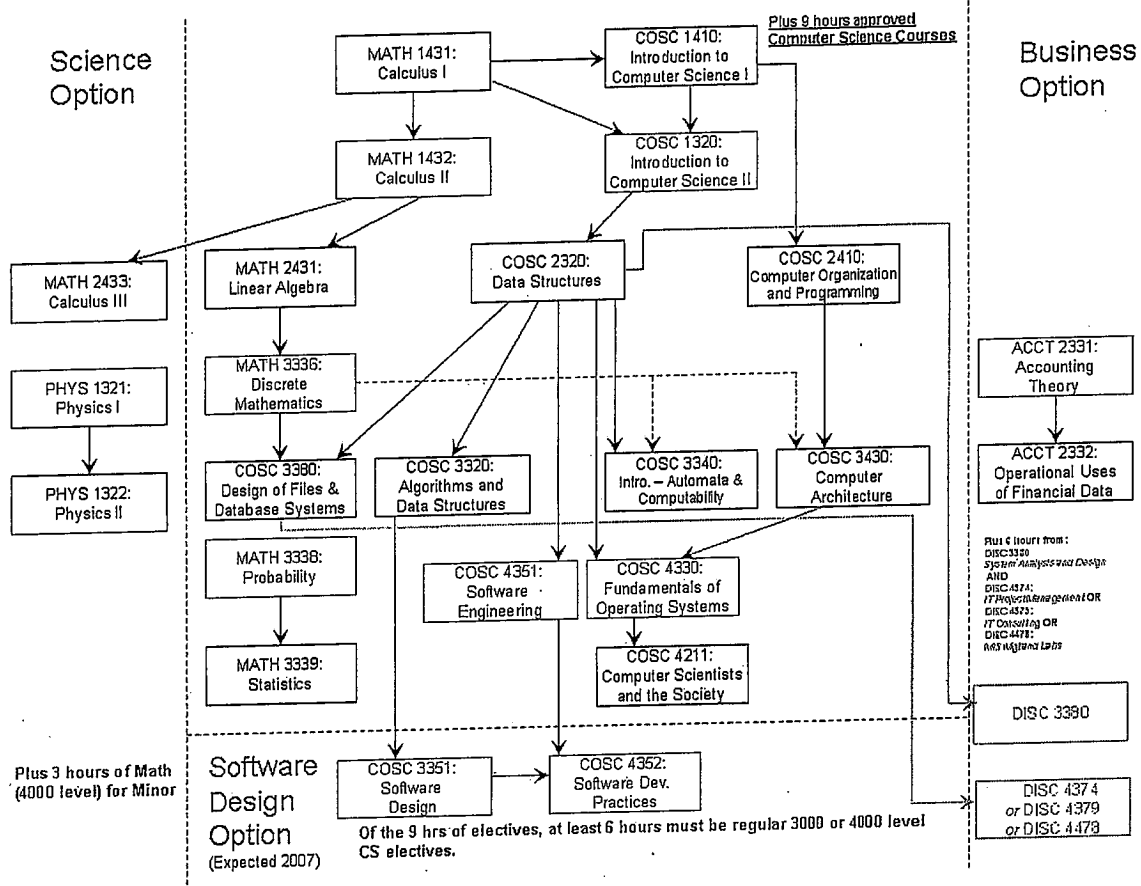

Proposed Curriculum

1. Introduce COSC 3320 Algorithms and Data Structures for *all* options
2. Require students to take Major Field Test as part of 4211 for *all* options.  
Make COSC 4351 and COSC 4330 required for COSC 4211 for *all* options.
3. Reduce elective hours from 12 to 9 (due to introduction of 3320) for *all* options
4. Introduce Software Design Option

Proposed Curriculum Change to Business Option  
 Approved by faculty on February 14, 2007

1. Reduce the 9 hours to 6 hours.
2. Update the list of DISC courses.
