

CULLEN COLLEGE OF ENGINEERING
OFFICE OF THE DEAN

RECEIVED JAN 15 2008

APPROVED MAR 12 2008

To: Undergraduate Council
From: Frank "Fritz" Claydon, Associate Dean for Undergraduate Programs and Computer Facilities
Date: January 14, 2008
RE: Engineering Transfer Admissions Requirements

Please note that "calculus-based" before physics is a technical correction from the following history:
Corrections to approved UC 9255 07S (Approved February 21, 2007)

Reference: web link <http://www.uh.edu/academic/catalog/general/admis.html> (new language in bold)

The College of Engineering currently requires that transfer applicants (with > 15 hours) have a GPA of 2.50 or higher for all college level math courses. The College would like to define college level math and physics courses used for transfer as "calculus based" courses.

The committee recommends approval of this proposed change.

Cullen College of Engineering

Transfer applicants who have earned fewer than 15 semester hours of college credit must meet the engineering requirements for high school graduates.

Applicants who have earned between 15 or more semester hours of college credit must have all of the following:

1. A grade point average of 2.50 or higher for all college level work attempted.
2. A grade point average of 2.50 or higher for all college level "calculus" math courses attempted.
3. A grade point average of 2.50 or higher for all college level chemistry and "**calculus-based**"¹ physics courses attempted.
4. A grade point average of 2.50 or higher for all college level English courses attempted; international students must have a TOEFL score of 550 on the written examination, 213 on the computerized test, and 79-80 on the internet based test.
5. A grade point average of 2.50 or higher for all college level engineering courses attempted.
6. Must have attempted at least one college level "calculus" mathematics course and at least one college level "calculus-based"¹ physics course or college level chemistry course

See the Cullen College of Engineering website at www.egr.uh.edu for more information.

¹ Equivalent to University of Houston's MATH 1431; MATH 1432; ATH 2433; CHEM 1331/1111; CHEM 1332/1112; CHEM 1372/1117; PHYS 1321; PHYS 1322
