To: Undergraduate Council  
From: Curriculum Committee-Moores School of Music  
Lynn Lamkin, Associate Director, 3-3171

RECEIVED OCT 20 2008

APPROVED NOV 19 2008  
EFFECTIVE FALL 2009

Request to add three credit hours to the Bachelor of Music in Theory degree plan.

**Proposed addition of Thesis, MUSI3399.**

Due to a restructuring of the theory component of the B.M. in Theory degree plan, the total number of credit hours currently stands at 118 rather than the required 120. With the addition of this three credit-hour thesis course, MUSI3399, the number of degree required credit hours will total 121.

**Rationale**

The B.M. in Theory currently includes one three-hour course, Senior Thesis, MUSI 4399. By adding a second thesis course, theory majors will have more time for research and analysis in preparation of their theses. It will also bring the total number of thesis credit hours in line with those in other disciplines (English, Psychology, Pharmaceutical Sciences, Computer Science, & Mathematics).
