Re: Deactivation of Unused Minor Codes

RECEIVED OCT 15 2010
FM

In a review of the current inventory of Active minor for the College of Technology, it was discovered that we have a few active minor codes that do not have active degree plans. In an effort to clean up the tables I request we inactivate these minors.

The list of minor codes recommended for inactivation:

OCEDMNR- Occupational Education

OCTEMNR- Occupational Technology

OTISMNR- Occupational Technology and Industrial Studies

We no longer teach any courses in Occupational Technology
