SUBJECT: Degree plan change proposals v.2

Jabled 4/16/12

The HHP faculty has approved the following proposed degree plan changes and is submitting for CLASS approval for submission to the University Undergraduate Studies Committee.

BS in Kinesiology: Exercise Science (Primary Option)

- **Proposal:** To add KIN 4375 Neuromuscular Basis of Exercise and KIN4385:Growth, Maturation, and Exercise to the Exercise Science Core. The Exercise Science Core will increase six hours to 27 hours and the Approved Electives will decrease six hours to nine hours.
- **Rationale:** Based on a survey of recent Exercise Science graduates, we have identified two new upper division courses that will contribute skills they feel are missing upon graduation. These two courses will be cross disciplinary in nature and include content from the fields of exercise physiology, motor control, biomechanics, motor learning, gerontology, nutrition, and fitness.

BS in Kinesiology: Fitness and Sports

- **Proposal:** To add KIN 4350 Sport Marketing to the Fitness and Sports Core. The Fitness and Sports Core will increase three hours to 45 hours and the Approved Electives will decrease three hours to six hours.
- **Rationale:** The nature of the industry relies heavily on the basic knowledge of marketing.

BS in Kinesiology: Sport Administration

- **Proposal:** To delete "Wellness-Fitness Core" as a prerequisite for KIN 4355 Organization and Administration of Athletics.
- **Rationale:** Current prerequisites for KIN 4355 include nine hours of the KIN core, which is standard for all Kinesiology degrees (except Sport Administration). The Wellness-Fitness Core is named incorrectly and does not exist.

BS in Kinesiology: Sport Administration

- **Proposal:** To add KIN 3303 Sport Communication to the Sport Administration Core. The Sport Administration Core will increase three hours to 49 hours and the Approved Electives will decrease three hours to six hours.

- Rationale: The accreditation organization for Sport Administration requires this subject matter. The first HHP proposal reduced the Approved Electives to nine hours with the addition of two natural science hours to meet CLASS requirements.

Minor in Kinesiology

- Proposal: To increase the entrance requirements to a 2.3 GPA.
- Rationale: The increase parallel with the proposal to increase in GPA requirement for HHP majors.
