Re: Degree plan changes to the proposed majors formerly known as B. S. in Interdisciplinary Studies

The College of Education QUEST program leadership has completed a review of our undergraduate programs leading to elementary and middle school teacher certification with three goals in mind:

- 1) to create an innovative program that will prepare exemplary teacher candidates to be highly sought after by school districts in Houston and beyond, befitting of a Tier 1 university, rather than simply meeting state standards and content requirements;
- 2) to reduce redundancy in order to lower hours as close as possible toward the 120-hour limit; and
- 3) to aide student success and to encourage on-time graduation.

Based on this review, we have made modifications to the courses offered and to the sequence of course on the Interdisciplinary EC-6 Generalist, Bilingual EC-6 Generalist, and 4-8 degree plans. The total hours of these degree plans have changed as follows:

- Interdisciplinary Studies EC-6 (proposed name change to Elementary Teaching and Curriculum): the hours were previously approved by waiver to be 126 and are now reduced to 124;
- Interdisciplinary Studies EC-6 Bilingual (proposed name change to Bilingual Elementary Teaching and Curriculum): total hours were previously approved by waiver to be 135 and are now reduced to 133;
- Interdisciplinary Studies 4-8 (proposed name change to Middle School Teaching and Curriculum): the hours were previously 120 and are now increased to 121; Please consider this proposal as compelling academic reason for a waiver for the 4-8 degree plans to exceed the 120 credit hour limit. We have carefully examined all of our course offerings, and while a number of courses were eliminated, it was necessary to add other content that was missing in order to prepare students to pass state licensure exams.

In general, course modifications fell into these categories

- Deleted or combined courses to reduce redundancy;
- Added courses to increase content and attention to English as a Second Language;
- Required and sequenced Core courses to better meet the needs of our teacher candidates;
- Re-sequenced courses for predictability of degree plan to better aide on-time graduation.

Below is a summary of the specific course changes. The complete degree plans can be found as Attachments A-F.

HOUSTON

EDUCATION

Deleted Courses

▪ EC-6

- CUIN 3201: this coursework will be integrated throughout the program and in required introductory program seminars.
- CUIN 4318: this content overlapped to a great degree with content in CUIN 4375; the content has been merged into 4375 and also will be integrated into Student Teaching capstone requirements and methods courses.
- CUIN 3202/3112: this coursework is being integrated into the Student teaching coursework, now taken a semester earlier.

▪ 4-8

- CUIN 3222/3122: this coursework is being integrated into the Student teaching coursework, now taken a semester earlier;
- CUIN 3302: this coursework is being integrated into the new Urban Child course (to be taught as a Selected Topics course in 2012/13 and proposed as a new course for Fall 2013).

▪ Both EC-6 and 4-8

- CUST 3320: this course content is being integrated into the new Urban Child course.
- COMM 1332: program leadership determined that we have adequate experiences within our program courses for students to develop confidence in public speaking, specifically for teaching purposes, without the need to require this generic course.

Re-Sequenced Courses

▪ EC-6

- MUSI 4342: this course was previously included in our Junior-Senior coursework; because it has Core designation, it has been moved earlier in the degree plan and required as the Visual and Performing Arts Core requirement.
- CUIN 4332: this course has been moved into the student teaching experience so as to allow students to work with real children.
- ARED 3305: this course has been moved into the student teaching experience because of better fit with content;

▪ Both EC-6 and 4-8

- EPSY 3300: This course will continue to be required but has been moved into the Sophomore year; most transfer students transfer this course in, so it is a better fit to have this course taken prior to the Junior-Senior coursework.
- EDUC 4311 and EDUC 4324: These courses were moved forward a semester to facilitate our new full-year student teaching experience.

Added Courses

- **New Courses, EC-6**
 - ELED 4311 and ELED 4314 (already approved by Undergraduate Council): One additional course in both science methods and mathematics methods was determined to be necessary to ensure highly qualified teacher graduates;
- **New Courses, 4-8**
 - CUIIN 4315: the middle school candidates did not previously have an Assessment course listed on their degree plans. This is an existing course, but new to the 4-8 degree plan.
- **New Courses, both EC-6 and 4-8**
 - Urban Child (will be taught as a Selected Topics course in 2012-13 and proposed in Fall 2012 to begin in Fall 2013): This course is a comprehensive, interdisciplinary immersion into the issues related to teaching children in urban areas, to include issues related to multicultural contexts, diversity, poverty, English as a Second Language, and school law.
 - HDFS 1311: Development of Self-Regulated Learning: this course addresses cognitive, motivational, and behavioral factors related to academic success; the program feels this course will not only lead to increased student success in our program, but an empathy and personal connection for our students in the learning of their own students. It is an existing course, but new to these degree plans.
- **Specified Core, both EC-6 and 4-8:**
 - Natural Science Core and State Education Science Requirement: in our existing degree plans, there are no Natural Science courses specified; students may select from all available. In order to ensure well-rounded teachers, we have specified required science courses (GEOL 1330 and BIOL 1310 for the 6 hours of Natural Science Core and CHEM 1301 and PHYS 1301 for the 6 hours of State Education science requirements.)
 - Writing in the Disciplines Core: To ensure prepared teachers who understand students' lives both inside and outside the classroom, we are requiring HDFS 1300 Development of Contemporary Families to be taken to satisfy the Writing in the Disciplines requirements.

Attachment F. Proposed Degree Plan for Elementary Teaching and Curriculum

Year 1, Fall:	
Course	hrs.
ENGL 1303 First Year Writing I	3
MATH 1311 Elementary Math Modeling	3
HIST 1377 (The United States to 1877)	3
CHEM 1301 Foundations of Chemistry [Sciences A]	3
HDFS 1311: Development of Self-Regulated Learning	3
Total hours for Year 1, Fall	15

Year 1, Spring	
Course	hrs.
ENGL 1304 First Year Writing II	3
MATH 1312 Introduction to Mathematics	3
HIST 1378 (The United States since 1877)	3
