Re:

Health Degree Plan Reorganization

APPROVED MAR 2 1 2012

RECEIVED MAR 0 1 2012

The Health program in the Department of Educational Psychology has regrouped courses on the Bachelors of Science in Health, specifically in the Public Health Track. Courses in two section headings (Public Health Core and Health Specialization) have been placed under one section heading (Public Health Core). This slight reorganization under one heading was done to aide student understanding of requirements and ability to complete the degree in a timely manner. The courses remain the same. (See Attachments, including current degree plan and the proposed degree plan.)
