Electrical and Computer Engineering Department

Re: Undergraduate Major GPA

This memorandum is to seek approval to change the way the undergraduate major GPA is computed by the ECE department.

Currently the catalog states:

The major grade point average is calculated using all ECE courses except for ECE 1121 and ECE 3336. In addition, for computer engineering majors only, the major grade point average will also include all COSC courses that could be applied to the Bachelor of Science in Computer Engineering degree.

The ECE Academic Standards Committee voted to include all Engineering Computing XXXX 1331 courses. Thus the catalog should state:

The major grade point average is calculated using all ECE courses (except for ECE 1121 and 3336) as well as all Engineering Computing XXXX 1331 courses. In addition, for computer engineering majors only, the major grade point average will also include all COSC courses that could be applied to the Bachelor of Science in Computer Engineering degree.
