**Subject:** RE: University Coordinating Commission (UCC): Associate Deans' Response Needed for UCC Agenda Item (UCC 0331 14S)

Re; UC 0331 14S

Dear UCC:

For t9.01 The ethical conduct in academic research and scholarship, the Research Council should be replaced by the Research and Scholarship Committee (RSC) throughout.

I was surprised that the only link to Division of Research (DOR) in the proceedings is the chair of the faculty RSC, even when federal funding agencies and other sponsors are involved. In the document, it is the VP for academic affairs that reports to federal funding agencies and other sponsors about misconduct. The university works with funding agencies via the DOR for all other issues. There is no line of communication described in the document about what the VP tells funding agencies back to DOR, and their expertise in Compliance is not utilized.
