

Attention Veterans!

Lunch & Learn Session

You Are Invited

**Topic of Discussion:
Cognitive Training Group & Traumatic Brain Injury
Friday, November 22, 2013
Noon – 1:00 p.m.
University Center, Bluebonnet Room 250**

This “lunch and learn” session will focus on Professor Peggy Blake’s research on the effectiveness of cognitive training groups for veterans with blast-related brain injury or cognitive deficits. A large number of veterans experience changes in memory, attention, problem-solving and reasoning as a result of a traumatic brain injury (TBI) or from exposure to blasts during deployment. These challenges can impact success in college and in the workplace. In addition, the session will explore career and educational opportunities in the field of communication disorders.

Pizza will be served. Please [RSVP online](#).
